## II. Registration Applications

EPA has received applications to register pesticide products containing active ingredients not included in any currently registered pesticide products. Pursuant to the provisions of FIFRA section 3(c)(4) (7 U.S.C. 136a(c)(4)), EPA is hereby providing notice of receipt and opportunity to comment on these applications. Notice of receipt of these applications does not imply a decision by the Agency on these applications. For actions being evaluated under EPA's public participation process for registration actions, there will be an additional opportunity for public comment on the proposed decisions. Please see EPA's public participation website for additional information on this process (<https://www2.epa.gov/pesticide-registration/public-participation-process-registration-actions>).

## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1158; FR ID 200253]

### Information Collection Being Reviewed by the Federal Communications Commission

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

**DATES:** Written PRA comments should be submitted on or before April 5, 2024. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Nicole Ongele, FCC, via email [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [nicole.ongele@fcc.gov](mailto:nicole.ongele@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

**SUPPLEMENTARY INFORMATION:** The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

*OMB Control Number:* 3060-1158.

*Title:* Transparency Rule Disclosures, Restoring Internet Freedom, Report and Order, WC Docket No. 17–108.

*Form Number:* N/A.

*Type of Review:* Extension of a currently-approved collection.

*Respondents:* Business or other for-profit entities, not-for-profit entities; State, local, or Tribal governments.

*Number of Respondents and Responses:* 2,384 respondents; 2,384 responses.

*Estimated Time per Response:* 26 hours.

*Frequency of Response:* On occasion reporting requirement; third party disclosure requirement.

*Obligation to Respond:* Mandatory. Statutory authority for these collections is contained in section 257 of the Communications Act of 1934, as amended, 47 U.S.C. 257.

*Total Annual Burden:* 61,984 hours.

*Total Annual Cost:* \$510,000.

*Needs and Uses:* The Restoring Internet Freedom Report and Order (*Restoring Internet Freedom Order*) revised the information collection requirements applicable to Internet service providers (ISPs). The *Open Internet Order*, adopted in 2010, required ISPs to disclose certain network management processes, performance characteristics, and other attributes of broadband Internet access service. These disclosure requirements were significantly increased by the *Title II Order*, adopted in 2015. The *Restoring Internet Freedom Order* eliminated the additional collection imposed by the *Title II Order*, and added a few discrete elements to the *Open Internet Order's* information collection requirements. The *Restoring Internet Freedom Order* requires an ISP to publicly disclose network management practices, performance, and commercial terms of its broadband Internet access service sufficient to enable consumers to make informed choices regarding the purchase and use of such services, and entrepreneurs and other small businesses to develop, market, and maintain Internet offerings. As part of these disclosures, the rule requires ISPs to disclose their congestion management, application-specific behavior, device attachment rules, and security practices, as well as any blocking, throttling, affiliated prioritization, or paid prioritization in which they engage. The rule also requires ISPs to disclose performance characteristics, including a service description and the impact of nonbroadband Internet access services data services. Finally, the rule requires ISPs to disclose the price of the service, privacy policies, and redress options.

The rule requires ISPs to make such disclosures available either via a publicly-available, easily accessible website or through transmittal to the Commission, which will make such disclosures available via a publicly-available, easily accessible website. The information collection will assist the Commission in its statutory obligation to report to Congress on market entry barriers in the telecommunications market. The Commission anticipates that the revised disclosures would empower consumers and businesses with information about their broadband Internet access service, protecting the openness of the Internet. Although this collection was bifurcated in 2016 with respect to fixed and mobile ISPs, the Commission seeks to have this collection encompass both fixed and mobile ISPs.

The Commission has determined that the authorized resale of international private lines inter-connected to the U.S. public switched network would tend to divert international message telephone service (IMTS) traffic from the settlements process and increase the U.S. net settlements deficit. The information will be used by the Commission in reviewing the impact, if any, that end-user private line interconnections have on the Commission's international settlements
