Animal and Plant Health Inspection Service

Title: Importation of Live Swine, Pork and Pork Products, and Swine Semen from the European Union.

OMB Control Number: 0579–0218.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The Law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The AHPA is contained in title X, subtitle E, sections 10401–18 of Public Law 107–171, dated May 13, 2002, the Farm Security and Rural Investment Act of 2002. Disease prevention is the most effective method to maintain a healthy animal population and for enhancing the United States’ ability to compete in the world market of animal and animal product trade.

The Animal and Plant Health Inspection Service (APHIS) regulates the importation of animals and animal products into the United States to guard against the introduction of animal diseases not present or prevalent here.

Need and Use of the Information: APHIS will collect information using an Application for Import or in Transit Permit, concerning the origin and history of the items destined for importation into the United States. APHIS will also collect information to ensure that swine, pork and pork products, and swine semen pose a negligible risk of introducing exotic swine diseases into the United States. A Declaration of Importation form is also used to collect information in this collection. Collecting this information less frequently or failing to collect it

would increase the chances of CSF and other swine diseases being introduced into the United States.

Description of Respondents: Foreign federal governments and businesses.

Number of Respondents: 16.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 7,230.

Levi S. Harrell,

Departmental Information Collection Clearance Officer.
