SUPPLEMENTARY INFORMATION:

I. Background

Under the PRA and its implementing regulations (5 CFR part 1320), Federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor (e.g., contractually-required information collection by a third-party). "Collection of information," within the meaning of the PRA, includes agency requests that pose identical questions to, or impose reporting or recording keeping obligations on, ten or more persons, regardless of whether response to such request is mandatory or voluntary. See 5 CFR 1320.3(c); see also 44 U.S.C. 3502(3). Before seeking clearance from OMB, agencies are generally required, among other things, to publish a 60-day notice in the **Federal Register** concerning any proposed information collection—including extension of a previously-approved collection—and provide an opportunity for comment. See 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1).

II. Proposed Renewal of Information Collection Request

The Access Board is providing notice of its intent to seek renewal of its

existing generic clearance for the collection of qualitative feedback with regard to agency services. To date, we have found the feedback garnered through qualitative customer satisfaction surveys (and similar information collections) to be beneficial, by providing useful insights in experiences, perceptions, opinions, and expectations regarding Access Board services or focusing attention on areas in need of improvement. We thus intend to seek approval to continue our current efforts to solicit qualitative customer feedback by seeking input from customers across our agency programs and services. Online surveys will be used unless the customer contacts the agency by phone for technical assistance or an individual otherwise expresses a preference for another survey format (i.e., fillable form in portable document format or paper survey). In addition, paper surveys may be used to garner feedback from participants at in-person trainings or similar events.

OMB Control Number: 3014-0011.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Type of Request: Extension without change.

Abstract: The proposed information collection activity facilitates collection of qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Federal Government's commitment to improving service delivery. By qualitative feedback we mean information collections that provide useful insights on perceptions and opinions but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insight into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training, or changes in operations might improve delivery of services. These collections will allow for ongoing, collaborative, and actionable communications between the Access Board and its customers and stakeholders.

Respondents/Affected Public: Individuals and Households; Businesses and Organizations; State, Local or Tribal Government.

Burden Estimates: In the table below (Table 1), the Access Board provides estimates for the annual reporting burden under this proposed information collection. The Access Board does not anticipate incurring any capital or other direct costs associated with this
