SUPPLEMENTARY INFORMATION:

Intellectual Property

1. United States Provisional Patent Application No. 63/295,762 filed December 31, 2021, entitled “T Cell Therapy with Vaccination as a Combination Immunotherapy Against Cancer” [HHS Reference No. E-046-2022-0-US-01]; and

2. International Patent Application No. PCT/US2022/082579 filed December 29, 2022, entitled “T Cell Therapy with Vaccination as a Combination Immunotherapy Against Cancer” [HHS Reference No. E-046-2022-0-PCT-02].

The patent rights in these inventions have been assigned and/or exclusively licensed to the government of the United States of America.

The prospective exclusive license territory may be worldwide, and the field of use may be limited to the following:

“Development, manufacture, and commercialization of combination immunotherapies for the treatment of cancer in humans, comprising at least the following elements:

1. An autologous T cell product, where the T cells are tumor infiltrating lymphocytes (TIL) or chimeric antigen receptor-expressing T cells (CAR-T); and
2. A neoantigen cancer vaccine.”

The E-046-2022 patent family is primarily directed to a combination immunotherapy comprising a population of antigen-specific immune cells (e.g., T cells) and a vaccine targeting the same antigen(s). In oncology, many investigational adoptive cell therapies rely on antigen-specific T cells isolated from the patient in need of treatment. However, these cells often exist in a terminally differentiated and exhausted state and are unable to mount a robust immune response following reinfusion. Recent evidence suggests that administration of a vaccine in parallel with the T cell product can ameliorate this performance defect when the vaccine targets antigen(s) recognized by the T cells. It is hoped that this two-part approach will enhance treatment efficacy. The exclusive field of use which may be granted to Marble applies to only certain autologous T cell products and vaccination strategies and does not include, for example, at least two broad classes of cell therapies: allogeneic T cell-based products and TCR-engineered

T cell products (TCR-T). Accordingly, the proposed scope of rights which may be conveyed under the license covers a portion of the possible applications of E-046-2022.

This Notice is made in accordance with 35 U.S.C. 209 and 37 CFR part 404. The prospective exclusive license will be royalty bearing, and the prospective exclusive license may be granted unless within fifteen (15) days from the date of this published Notice, the National Cancer Institute receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR part 404.

In response to this Notice, the public may file comments or objections. Comments and objections, other than those in the form of a license application, will not be treated confidentially and may be made publicly available.

License applications submitted in response to this Notice will be presumed to contain business confidential information and any release of information from these license applications will be made only as required and upon a request under the Freedom of Information Act, 5 U.S.C. 552.

[Investigation Nos. 701–TA–489 and 731–
TA–1201 (Second Review)]

Drawn Stainless Steel Sinks From China

Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that revocation of the countervailing duty order on drawn stainless steel sinks from China and the antidumping duty order on drawn stainless steel sinks from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on July 3, 2023 (88 FR 42688) and determined on October 6, 2023 that it would conduct expedited reviews (88 FR 80762, November 20, 2023).

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on February 1, 2024. The views of the Commission are contained in USITC Publication 5489 (February 2024), entitled *Drawn Stainless Steel Sinks from China: Investigation Nos. 701–TA–489 and 731–TA–1201 (Second Review)*.

Brass Rod From India

Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of brass rod from India, provided for in subheadings 7407.21.15, 7407.21.30, 7407.21.70, and 7407.21.90 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be subsidized by the government of India.^{2 3}

The Commission instituted this investigation effective April 27, 2023, following receipt of a petitions filed with the Commission and Commerce by the American Brass Rod Fair Trade Coalition, Washington, District of Columbia; Mueller Brass Co., Port Huron, Michigan; and Wieland Chase LLC, Montpelier, Ohio. The Commission scheduled the final phase of the investigation following notification of a preliminary determination by Commerce that imports of brass rod from India were being subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)). Notice of the scheduling of the final phase of the Commission’s investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of October 5, 2023 (88 FR 69229).
