Abstract: The Climate Pollution Reduction Grants (CPRG) program was established under section 60114 of the Inflation Reduction Act (IRA) signed on August 16, 2022. Through a competitive process, EPA anticipates awarding \$4.6B in CPRG implementation grants to States, municipalities, Tribes/Territories, and air quality management districts in 2024 to "facilitate the reduction of greenhouse gas air pollution." Grantees will be required to report projected greenhouse gas (GHG) emission reductions as well as changes in other air pollutants, both in general and specifically in low-income and disadvantaged communities (LIDAC). This information will be collected to ensure accurate projections of GHGs and other air pollutant emissions both in and outside LIDAC areas for projects being funded under the CPRG program.

It is expected that the CPRG program, along with other IRA programs, will be

required to demonstrate effective execution of the statutory responsibilities charged to EPA, as well as comply with any additional reporting requirements (e.g., Evidence Act, Justice40). These responsibilities necessitate standardized data collection from CPRG implementation grantees for the purposes of (1) determining the accuracy of calculations and analyses submitted by grantees, (2) assessing the compliance of grantees in performing tasks agreed to under the Terms and Conditions of CPRG implementation grants, and (3) applying information collected from CPRG implementation grantees for analytical use.

Form numbers: n/a.

Respondents/affected entities: CPRG Implementation Grant General Competition and Tribes/Territories Competition grantees.

Respondent's obligation to respond: Mandatory (to comply with CPRG grant Reporting Requirements/Terms and Conditions).

Estimated number of respondents: ~130.

Frequency of response: 1-year (General Competition) and final reports (General and Tribal Competitions).

Total estimated burden: ~47,133 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: ~\$2,905,406 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: Not applicable, no current ICR.

Director, Air Quality Policy Division.
