BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-24-0493; Docket No. CDC-2024-0010]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled 2025 and 2027 National Youth Risk Behavior Survey (YRBS). CDC is requesting a three-year approval to reinstate, with changes, the data collection for the national YRBS, a biennially school-based survey of high school students in the United States. This project includes a validation study that will inform the development of questions for the 2027 YRBS questionnaire.

DATES: CDC must receive written comments on or before April 9, 2024.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2024-0010 by either of the following methods:

- **Federal eRulemaking Portal:** www.regulations.gov. Follow the instructions for submitting comments.
- **Mail:** Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.
Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to www.regulations.gov.
Please note: Submit all comments through the Federal eRulemaking portal (www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7118; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected;

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and

5. Assess information collection costs.

Proposed Project

2025 and 2027 National Youth Risk Behavior Survey (OMB Control No. 0920-0493)—Reinstatement with Change—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The purpose of this request is to obtain OMB approval to reinstate with change, the data collection for the National Youth Risk Behavior Survey (YRBS) (OMB Control No. 0920-0493), a school-based survey that has been conducted biennially since 1991. OMB approval for the 2021 YRBS and 2023 YRBS expired November 30, 2023. CDC seeks a three-year approval to conduct the YRBS in Spring 2025 and Spring 2027. Changes incorporated into this Reinstatement request include the addition of a validation study of fruit and vegetable intake, the results of which will be used to inform changes to the 2027 YRBS questionnaire. Additional changes include an updated title for the information collection to accurately reflect the years in which the survey will be conducted and minor

changes to the data collection instrument.

The YRBS assesses priority health risk behaviors related to the major preventable causes of mortality, morbidity, and social problems among both youth and young adults in the United States. Data on health risk behaviors of adolescents are the focus of approximately 65 national health objectives in Healthy People 2030, an initiative of the U.S. Department of Health and Human Services (HHS). The YRBS provides data to measure 14

Healthy People 2030 objectives. In addition, the YRBS can identify racial and ethnic disparities in health risk behaviors. No other national source of data measures as many of the Healthy People 2030 objectives addressing adolescent health risk behaviors as the YRBS. The data also will have significant implications for policy and program development for school health programs nationwide.

In Spring 2025 and Spring 2027, the YRBS will be conducted among nationally representative samples of

students attending public and private schools in Grades 9–12, and in 2025, the validation study will be conducted among a convenience sample of schools and students. Information supporting the YRBS also will be collected from state-, district-, and school-level administrators and teachers. The table below reports the number of respondents annualized over the three-year project period. The total estimated annualized burden hours are 4,388. There are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hr)	Total burden (in hr)
State Administrators	State-level Recruitment Script for the Youth Risk Behavior Survey.	17	1	30/60	9
District Administrators	District-level Recruitment Script for the Youth Risk Behavior Survey.	80	1	30/60	40
School Administrators	School-level Recruitment Script for the Youth Risk Behavior Survey.	133	1	30/60	67
School Administrators	School-level Recruitment Script for the Validation Study.	6	1	30/60	3
Teachers	Permission Form Tracking Log for the Youth Risk Behavior Survey.	440	1	15/60	110
Teachers	Permission Form Tracking Log for the Validation Study.	14	1	15/60	4
Students	Youth Risk Behavior Survey	8,045	1	30/60	4022
Students	Dietary Behavior Questionnaire	200	1	10/60	33
Students	24-hour Dietary Recall Interview	200	1	30/60	100
Total	4,388
