Title of Collection: Integrated Postsecondary Education Data System (IPEDS) 2024–25 through 2026–27.

OMB Control Number: 1850–0582.

Type of Review: A revision of a currently approved ICR.

Respondents/Affected Public: Private Sector.

Total Estimated Number of Annual Responses: 65,536.

Total Estimated Number of Annual Burden Hours: 636,660.

Abstract: The National Center for Education Statistics (NCES) seeks authorization from OMB to make a change to the Integrated Postsecondary Education Data System (IPEDS) data collection. IPEDS is a web-based data collection system designed to collect basic data from all postsecondary institutions in the United States and the other jurisdictions. The IPEDS data collection enables the National Center for Education Statistics (NCES) to report on key dimensions of postsecondary education such as enrollments, degrees and other awards earned, tuition and fees, average net price, student financial aid, graduation rates, student outcomes, revenues and expenditures, faculty salaries, and staff employed.

The IPEDS web-based data collection system was implemented in 2000–01. In 2022–23, IPEDS collected data from 5,983 Title IV postsecondary institutions in the United States and the other jurisdictions. All Title IV institutions are required to respond to IPEDS (Section 490 of the Higher Education Amendments of 1992 [Pub. L. 102–325]). IPEDS allows other (non-Title IV) institutions to participate on a voluntary basis; approximately 200 non-Title IV institutions elect to respond each year. Institution closures and

mergers have led to a decrease in the number of institutions in the IPEDS universe over the past few years. Due to these fluctuations, combined with the addition of new institutions, NCES uses rounded estimates for the number of institutions in the respondent burden calculations for the upcoming years (estimated 6,000 Title IV institutions plus 200 non-title IV institutions for a total of 6,200 institutions estimated to submit IPEDS data during the 2024–25 through 2026–27 IPEDS data collections). IPEDS data are available to the public through the College Navigator and IPEDS Use the Data websites.

The current clearance covers the 2022–23 through 2024–25 collections and is due to expire on August 31, 2025. We are requesting to make changes to multiple survey components and other updates to the identification, cross-cutting terminology, and the glossary. The largest changes in this package are (1) the addition of a new Cost (CST) survey component, which combines components taken from the Student Financial Aid (SFA) and Institutional Characteristics (IC) components and combines them with added questions to determine how and make publicly available more information about how postsecondary institutions ask for information above and beyond the FAFSA; and (2) the planned elimination of the Academic Libraries (AL) survey beginning in the 2025–26 administration.

As part of the public comment period review, NCES requests that IPEDS data submitters and other stakeholders respond to the directed questions found in Appendix D of this submission.

Dated: February 28, 2024.

SUPPLEMENTARY INFORMATION:

Title and OMB Number: 2024 Election Administration and Voting Survey; OMB Number Pending.

Needs and Uses

The EAC issues the EAVS to meet its obligations under the Help America Vote Act of 2002 (HAVA) to serve as a national clearinghouse and resource for the compilation of information with respect to the administration of Federal elections; to fulfill both the EAC and the Department of Defense Federal Voting Assistance Program's (FVAP) data collection requirements under the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA); and meet its National Voter Registration Act (NVRA) mandate to collect information from states concerning the impact of that statute on the administration of Federal elections. In addition, under the NVRA, the EAC is responsible for collecting information and reporting, biennially, to Congress on the impact of that statute. The information the states are required to submit to the EAC for purposes of the NVRA report is found under *Title 11 of the Code of Federal Regulations*. States that respond to questions in this survey concerning

voter registration-related matters will meet their NVRA reporting requirements under 52 U.S.C. 20508 and EAC regulations. Finally, UOCAVA mandates that FVAP work with the EAC and chief state election officials to develop standards for reporting UOCAVA voting information (52 U.S.C. 20302) and that FVAP will store the reported data and present the findings within the congressionally-mandated report to the President and Congress. Additionally, UOCAVA requires that "not later than 90 days after the date of each regularly scheduled general election for Federal office, each state and unit of local government which administered the election shall (through the state, in the case of a unit of local government) submit a report to the EAC on the combined number of absentee ballots transmitted to absent uniformed services voters and overseas voters for the election and the combined number of such ballots which were returned by such voters and cast in the election, and shall make such a report available to the general public." States that complete and timely submit the UOCAVA section of the survey to the EAC will fulfill their UOCAVA reporting requirement under 52 U.S.C. 20302. In order to fulfill the above requirements, the EAC is seeking information relating to the period from the Federal general election day 2022 +1 through the November 2024 Federal general election. The EAC will provide the data regarding UOCAVA voting to FVAP after data collection is completed. This data sharing reduces the burden on local election offices because FVAP does not have to conduct its own data collection to meet its reporting requirements.
