

additional non-infringement bases for claims 9, 12, or 13 of the '322 patent.

On December 5, 2023, the parties filed their respective responses to the petitions for review.

On December 27, 2023, MRI filed a statement on the public interest pursuant to Commission Rule 210.50(a)(4), 19 CFR. 210.50(a)(4). Respondents did not file a submission pursuant to Commission Rule 210.50(a)(4). No responses were received in response to the Commission's post-RD notice seeking public interest submissions. 88 FR 84360–61 (Dec. 5, 2023).

The Commission has determined not to review the subject FID. The Commission notes, however, that the FID, in analyzing whether claim 4 of the '322 patent is rendered obvious by the combination of certain prior art references, states several times that "MRI has shown by clear and convincing evidence" that each of the eight elements of claim 4 is disclosed by the prior art. See FID, at 213, 214, 215 and 216. The FID clearly meant that for each element, "Respondents have shown by clear and convincing evidence. . . ." This aspect of the FID is accordingly clarified.

The investigation is terminated with a finding of no violation of section 337.

The Commission vote for this determination took place on February 28, 2024.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: February 28, 2024.

**SUPPLEMENTARY INFORMATION:**

**I. Introduction**

During the period from January 1, 2024, to January 31, 2024, the NRC granted 22 exemptions in response to

requests submitted by the following licensees: Constellation Energy Generation, LLC; Duke Energy; NextEra Energy Point Beach, LLC and NextEra Energy Seabrook, LLC; Indiana Michigan Power Company; PSEG Nuclear LLC; Northern States Power Company, a Minnesota Corporation, doing business as Xcel Energy; Entergy Operations, Inc.; and Southern Nuclear Operating Company.

These exemptions temporarily allow the licensees to deviate from certain requirements of part 73 of title 10 of the *Code of Federal Regulations* (10 CFR), “Physical Protection of Plants and Materials,” subpart T, “Security Notifications, Reports, and Recordkeeping.” In support of its exemption requests, the licensees agreed to effect site-specific administrative controls that maintain the approach to complying with 10 CFR part 73 in effect prior to the NRC’s issuance of a final rule, “Enhanced Weapons, Firearms Background Checks, and Security Event Notifications,” which was published in the **Federal Register** on March 14, 2023, and became effective on April 13, 2023 (88 FR 15864).

**II. Availability of Documents**

The tables in this notice provide transparency regarding the number and type of exemptions the NRC has issued and provides the licensee name, facility name, docket number, document description, document date, and ADAMS accession number for each exemption issued. Additional details on each exemption issued, including the exemption request submitted by the respective licensee and the NRC’s decision, are provided in each exemption approval listed in the following tables.
