

generating units at the Oliver Development, which includes replacing the turbine runners on all units and replacing generators for Units 3 and 4. The upgrades would result in a 0.1 megawatt increase in the authorized installed capacity and a 937 cubic feet per second increase in the hydraulic capacity. The upgrade is scheduled to begin in 2025, with a unit upgrade starting at the beginning of each year in 2025, 2026, 2027, and 2028, pending approval of the amendment application. The applicant states that the proposal does not change any of the project features or operations. The project will continue to operate under the terms of its current license and applicable Water Quality Certification. All work would be performed inside the powerhouse, there would be no ground disturbance, and work areas associated with the proposed action are located on previously disturbed land.
