

There are four marine mammal species (northeast Pacific fin whale, Mexico-North Pacific and western North Pacific humpback whale, North Pacific sperm whale, and western DPS Steller sea lion) with confirmed occurrence in the project area that are listed as endangered under the ESA. The NMFS Alaska Regional Office Protected Resources Division issued a Biological Opinion on March 1, 2024 under section 7 of the ESA, on the issuance of an IHA to USAF under section 101(a)(5)(D) of the MMPA by the NMFS Permits and Conservation Division. The Biological Opinion concluded that the proposed action is not likely to jeopardize the continued existence of northeast Pacific fin whale, Mexico Pacific and western North Pacific humpback whale, North Pacific sperm whale, and western DPS Steller sea lion and is not likely to destroy or adversely modify western DPS Steller sea lion critical habitat.

#### National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216-6A, NMFS must evaluate our proposed action (*i.e.*, the issuance of an IHA) and alternatives with respect to potential impacts on the human environment. This action is consistent with categories of activities identified in Categorical Exclusion B4 (IHAs with no anticipated serious injury or mortality) of the Companion Manual for NAO 216-6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS has determined that the issuance of this IHA qualifies to be categorically excluded from further NEPA review.

#### Authorization

NMFS has issued an IHA to USAF for the potential harassment of small numbers of 12 marine mammal species incidental to the Eareckson Air Station (EAS) Fuel Pier Repair in Alcan Harbor, Shemya Island, Alaska, that includes the previously explained mitigation, monitoring and reporting requirements.
