SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000–0064, Certain Federal Acquisition Regulation Part 36 Construction Contract Requirements.

B. Need and Uses

DoD, GSA, and NASA are combining OMB Control Nos. by FAR part. This consolidation is expected to improve industry's ability to easily and efficiently identify burdens associated with a given FAR part. This review of

the information collections by FAR part allows improved oversight to ensure there is no redundant or unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports the extension of OMB Control No. 9000–0064 and combines it with the previously approved information collection under OMB Control No. 9000–0062, with the new title “Certain Federal Acquisition Regulation Part 36 Construction Contract Requirements”. Upon approval of this consolidated information collection, OMB Control No. 9000–0062 will be discontinued. The burden requirements previously approved under the discontinued number will be covered under OMB Control No. 9000–0064.
