*Title:* National Organic Program.

*OMB Control Number:* 0581-0191.

*Summary of Collection:* The Organic Foods Production Act of 1990 (OFPA), as amended (7 U.S.C. chapter 94) (Attachment 1), authorized the Secretary of Agriculture to establish the National Organic Program (NOP) and accredit certifying agents to certify that farms and businesses meet national organic standards. Under OFPA, the purpose of the NOP is to: (1) establish national standards governing the marketing of certain agricultural products as organically produced products; (2) assure consumers that organically produced products meet a consistent standard; and (3) facilitate interstate commerce in fresh and processed food that is organically produced (7 U.S.C. 6501).

*Need and Use of the Information:* The information collected is used by USDA, State program governing State officials, and certifying agents. The information is used to evaluate compliance with OFPA and NOP for administering the program, for management decisions and planning, for establishing the cost of the program and to support any administrative and regulatory actions in response to non-compliance with OFPA. Certifying agents will have to submit an application to USDA to become accredited to certify organic production and handling operations. Auditors will review the application, perform site evaluation and submit reports to USDA, who will make a decision to grant or deny accreditation. Producers, handlers and certifying agents whose operations are not approved have the right to mediation and appeal the decision. Reporting and recordkeeping are essential to the integrity of the organic certification system. If the collection of information was not conducted, the AMS would not be able to carry out the intent of Congress as it enforces the OFPA.
