DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by May 9, 2024 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: Understanding Risk Assessment in Supplemental Nutrition Assistance Program (SNAP) Payment Accuracy.

OMB Control Number: 0584–NEW.

Summary of Collection: The Payment Integrity Information Act of 2019 continues the work of previous related legislation in requiring Federal agencies to track and mitigate improper payments, which are defined as payments that either should not have been made or were made in an incorrect amount. FNS and the SNAP State agencies use SNAP Quality Control (QC) to closely monitor the program for improper payments. SNAP State agencies must conduct a QC review of a random sample of current cases each month (referred to as active cases) to identify underpayments and overpayments and calculate total payment error. At the end of the review period for each month's cases, the SNAP State agencies share the case files and results with Federal SNAP staff, who review a subsample of the cases for accuracy and use the results to calculate an annual official payment error rate for each State agency's official payment error rate.

Need and Use of the Information: FNS is conducting a study, Understanding Risk Assessment in Supplemental Nutrition Assistance Program (SNAP) Payment Accuracy, to develop a comprehensive picture of whether and how SNAP State agencies use RA tools and determine if these tools create disparate impacts on protected classes. The key research objectives follow: (1) determine which States use RA tools to reduce error rates; (2) determine what factors and variables are being used in RA tools; (3) identify how SNAP State agencies act on the results of their RA tools; (4) determine whether SNAP State agencies' RA tools are successful in reducing error rates; (5) determine if the RA tools create (or relieve) racial or other disparities by which individuals are flagged for further review; and (6) determine best practices in the development and use of RA tools.

Description of Respondents: State, Local and Tribal Governments, Individuals and Households.

Number of Respondents: 100.

Frequency of Responses: Reporting: On Occasion.

Total Burden Hours: 111.

Heavy-Walled Rectangular Welded Carbon Steel Pipes and Tubes From Mexico: Final Results of Antidumping Duty Administrative Review; 2021-2022

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that producers/exporters of heavy-walled rectangular welded carbon steel pipes and tubes (HWR pipes and tubes) made sales of subject merchandise at less than normal value during the period of review (POR), September 1, 2021, through August 31, 2022.

DATES: Applicable April 9, 2024.

FOR FURTHER INFORMATION CONTACT: David Crespo, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3693.

SUPPLEMENTARY INFORMATION:

Background

On October 5, 2023, Commerce published in the **Federal Register** the preliminary results of the 2021-2022 administrative review¹ of the antidumping duty order on heavy-walled rectangular welded carbon steel pipes and tubes from Mexico.² The

review covers 12 companies, including two mandatory respondents, Maquilacero S.A. de C.V. (Maquilacero) and Productos Laminados de Monterrey S.A. de C.V. (Prolamsa), for individual examination. We invited interested parties to comment on the *Preliminary Results*.³ We received case briefs from Maquilacero, Prolamsa, and Nucor Tubular Products Inc. (*i.e.*, the petitioner)⁴ and received rebuttal briefs from Maquilacero, Prolamsa, and the petitioner.⁵ For a complete description of the events that occurred since the *Preliminary Results*, see the Issues and Decision Memorandum.⁶ Commerce conducted this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The products covered by the *Order* are HWR pipes and tubes from Mexico. A complete description of the scope of the *Order* is contained in the Issues and Decision Memorandum.

Analysis of Comments Received

All issues raised in case and rebuttal briefs by interested parties in this administrative review are addressed in the Issues and Decision Memorandum and are listed in the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

⁵ See Maquilacero's Letter, "Maquilacero S.A. de C.V.'s Rebuttal Brief," dated November 21, 2023; Prolamsa's Letter, "Rebuttal Brief," dated November 21, 2023; and Petitioner's Letter, "Rebuttal Brief," dated November 21, 2023.

⁶ See Memorandum, "Issues and Decision Memorandum for the Final Results of the 2021-2022 Administrative Review of the Antidumping Duty Order on Heavy-Walled Rectangular Welded Carbon Steel Pipes and Tubes from Mexico," dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

Changes Since the Preliminary Results

Based on a review of the record and comments received from interested parties regarding the *Preliminary Results*, and for the reasons explained in the Issues and Decision Memorandum, we made certain changes to the weighted-average dumping margin calculations for Maquilacero and Prolamsa for the final results of the review.⁷

Rates for Companies Not Selected for Individual Examination

The statute and Commerce's regulations do not address the establishment of a rate to be applied to individual companies not selected for examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides for calculating the all-others rate in an investigation, for guidance when calculating the rate for companies which Commerce did not examine in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding rates that are zero, *de minimis* (*i.e.*, less than 0.5 percent), or determined entirely on the basis of facts available.

For these final results of review, we calculated a weighted-average dumping margin for both mandatory respondents, Maquilacero and Prolamsa, that are not zero, *de minimis*, or based entirely on the basis of facts available. Accordingly, Commerce is assigning to the companies not individually examined, listed in the chart below, a margin which is the weighted average of Maquilacero's and Prolamsa's calculated weighted-average dumping margins.⁸

Final Results of Review

As a result of this review, we determine the following weighted-average dumping margins exist for the period September 1, 2021, through August 31, 2022:

⁷ *Id.*

⁸ See Memorandum, "Calculation of the Weighted-Average Dumping Margin for Non-Selected Companies for the Final Results," dated concurrently with this notice. As the weighting factor, we relied on the publicly ranged sales data reported in the quantity and value charts submitted by Maquilacero and Prolamsa.
