[Docket No. CP24–60–000]

Northern Natural Gas Company; Notice of Schedule for the Preparation of an Environmental Assessment for the Northern Lights 2025 Expansion Project

On February 16, 2024, Northern Natural Gas Company (Northern) filed an application in Docket No. CP24–60–000 requesting a Certificate of Public Convenience and Necessity and authorization pursuant to Section 7 of the Natural Gas Act to abandon, construct, and operate certain natural gas pipeline facilities. The proposed project is known as the Northern Lights

2025 Expansion Project (Project), and Northern states it would provide 46,064 dekatherms per day serving residential, commercial, and industrial customer market growth in Northern's Market Area.

On February 29, 2024, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the Project.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental review.¹

Schedule for Environmental Review

Issuance of EA—September 13, 2024
90-day Federal Authorization Decision Deadline²—December 12, 2024

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

Northern proposes to construct and operate about 8.6 miles of pipeline extensions, and associated ancillary and auxiliary equipment in Freeborn, Houston, and Washington Counties, Minnesota, and Monroe County, Wisconsin.

The Northern Lights 2025 Expansion Project would consist of the following facilities:

- 3.0-mile-long extension of its 36-inch-diameter Lake Mills to Albert Lea E Line;
- 2.43-mile-long extension of its 30-inch-diameter Elk River 3rd Branch Line;
- a non-contiguous 1.91-mile-long extension of its 30-inch-diameter Farmington to Hugo C-Line;
- 1.28-mile-long extension of its 8-inch-diameter Tomah Branch Line Loop;

¹ 40 CFR 1501.10 (2020).

² The Commission's deadline applies to the decisions of other federal agencies, and state agencies acting under federally delegated authority, that are responsible for federal authorizations, permits, and other approvals necessary for proposed projects under the Natural Gas Act. Per 18 CFR 157.22(a), the Commission's deadline for other agency's decisions applies unless a schedule is otherwise established by federal law.

- one pig new launcher,³ valves, and piping inside its existing Hugo Compressor Station;
- minor piping modifications within its existing La Crescent Compressor Station;
- relocation of one pig receiver facility;
- three new valve settings and associated valves and piping;
- removal of three existing tie-in valve settings;
- abandonment and removal of 275 feet of its existing 30-inch diameter Elk River 3rd branch line; and
- and other appurtenant facilities.

Background

On March 26, 2024, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Northern Lights 2025 Expansion Project* (Notice of Scoping). The Notice of Scoping was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries, churches, and newspapers. All substantive comments will be addressed in the EA.
