

consortiums will receive TAC–RWTS grant funds to identify and evaluate economically feasible, innovative regional solutions to wastewater treatment concerns for historically impoverished communities in areas which have had difficulty installing traditional wastewater treatment systems due to soil conditions. Grants are for wastewater-related technical assistance, including such services as feasibility studies, preliminary design assistance and supervision, oversight, or training for the development of an application for financial assistance.

Grantees will be expected to provide the Agency with a detailed report to include the area to be served, the issues with the present method of wastewater discharge, the alternatives and innovative solutions to the wastewater issue, the long-term cost and effect of the solution, the affordability including possible funding sources, potential treatment, staff training needs, and lifecycle cost analysis.
