

Needs and Uses: This request is for a revision and renewal of a current information collection. Fishery quotas are established for many species in the fishery management plans developed by the Gulf of Mexico Reef Fish Fishery Management Council, the South Atlantic Fishery Management Council, and The Caribbean Fishery Management Council. The Southeast Fisheries Science Center has been delegated the responsibility to monitor these quotas. To do so in a timely manner, seafood dealers that handle these species are required to report the purchases (landings) of these species. It was discovered that the USVI trip interviews were being double counted with the Vessel trip interviews. We have made the changes to remove the USVI interviews for accuracy.

The frequency of these reporting requirements varies depending on the magnitude of the quota (*e.g.*, lower quota usually requires more frequent reporting) and the intensity of fishing effort. The most common reporting frequency is weekly. Daily reporting is only used for one fishery. In addition, information collection included in this family of forms includes interview with fishermen to gather information on the fishing effort, location and type of gear used on individual trips. This data collection is conducted for a subsample of the fishing trips and vessel/trips in selected commercial fisheries in the Southeast region and commercial fisheries of the US Caribbean. Fishing trips and individuals are selected at random to provide a viable statistical sample. These data are used for scientific analyses that support critical conservation and management decisions made by national and international fishery management organizations. This data collection is authorized under 50 CFR part 622.5.

Affected Public: Business and other for-profit organizations.

Frequency: Dealer reporting for monitoring Federal fishery annual catch limits (ACLs) are estimated to transmit data 173 times annually. Vessels selected for Trip Interview programs (TIP): Fin Fish interviews are estimated to be encountered 2.3 times annually.

Respondent's Obligation: Mandatory.

Legal Authority: 50 CFR part 622.5.
