

*States and Commonwealth of Kentucky v. Lexington-Fayette Urban County Government*, Civil Action No. 5:06-cv-386-KSF.

The Consent Decree—entered by the court in 2011—resolved alleged violations of the Clean Water Act stemming from Lexington-Fayette Urban County Government’s (“LFUCG”) operation of its sanitary sewer system and wastewater treatment plant. The Decree—including a First Material Modification entered by the court in 2015—required LFUCG to complete remedial projects to its sewer system and wastewater treatment plant to eliminate sanitary sewer overflows by December 31, 2026. The proposed material modification extends the final compliance deadline for remedial projects by four years to December 31, 2030, as well as making changes to reporting frequency and methods.

The publication of this notice opens a period for public comment on the proposed modification. **Notice of Lodging of Proposed Consent Decree Under the Safe Drinking Water Act**

On April 9, 2024, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Eastern District of California in the lawsuit entitled *United States v. Grindstone Indian Rancheria of Wintun-Wailaki Indians of California*, Civil Action No. 2:24-cv-01044-KJM-CKD.

The proposed Consent Decree would resolve claims against the Grindstone Indian Rancheria of Wintun-Wailaki Indians of California (“Defendant”) arising under sections 1414(g) and 1431 of the Safe Drinking Water Act (“SDWA”), 42 U.S.C. 300g-3(g) and 300i, and the SDWA’s National Primary Drinking Water Regulations at 40 CFR part 141, as well as for its failure to comply with the requirements of two administrative orders issued by the United States Environmental Protection Agency pertaining to Defendant’s noncompliance with the SDWA and its regulations at the Grindstone Indian Rancheria Public Water System. The proposed Consent Decree resolves these claims and includes a civil penalty of \$8,963 and injunctive relief including, but not limited to, demonstrating compliance with surface water treatment requirements, providing boil water notices and alternative water supply, retaining at least two full time operators for the drinking water system, providing annual reporting to its customers, providing operating reports to EPA, and developing and implementing an extensive operation and maintenance plan for the water system.
