

through a quarterly survey. The American Council of Life Insurers (ACLI) distributes the survey and provides PBGC with “double blind” data (*i.e.*, PBGC is unable to match responses with the insurance companies that submitted them). PBGC also uses the information from the surveys to determine the interest assumption it uses to value benefits payable to participants and beneficiaries in PBGC-trusted plans for purposes of PBGC’s financial statements.

PBGC is making conforming, clarifying, and editorial changes to the survey forms and instructions.

The existing collection of information was approved under OMB control number 1212–0030 (expires July 31, 2024). On February 2, 2024, PBGC published in the **Federal Register** (at 89 FR 7418) a notice informing the public of its intent to request an extension of this collection of information. No comments were received. PBGC is requesting that OMB extend approval of the collection for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

This voluntary survey is directed at insurance companies most, if not all, of which are members of ACLI. The survey is conducted quarterly and approximately 10 insurance companies will be asked to participate. PBGC estimates that about six insurance companies will respond to the survey each quarter, and that each survey will require approximately 30 minutes to complete and return. The total burden is estimated to be 12 hours (30 minutes per survey × four surveys per year × six respondents per quarter).

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501–3520), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. This notice complies with that requirement and solicits comments on the proposed ICR described below.

USAJOBS is the Federal Government’s centralized source for

most Federal jobs and employment information, including both positions that are required by law to be posted at that location and positions that can be posted there at an agency’s discretion, see 5 U.S.C. 3327 and 3330. The Applicant Profile, Resume Builder, and Career Explorer are three components of the USAJOBS application system. USAJOBS reflects the minimal critical elements collected across the Federal Government to begin an application for Federal jobs under the authority of 5 U.S.C. 1104, 1302, 3301, 3304, 3320, 3361, 3393, and 3394, and Civil Service Rule II, codified at 5 CFR part 2. OPM proposes to renew a currently approved collection with revisions. A 32-question career quiz was added to aid job seekers in matching their skills to Federal job series. The quiz is voluntary. OPM is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.
