BILLING CODE 8150-01-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[S-67-2024]

Foreign-Trade Zone 262; Application for Subzone; Hamilton Beach Brands, Inc.; Byhalia, Mississippi

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the Northern Mississippi FTZ, Inc., grantee of FTZ 262, requesting subzone status for the facility of Hamilton Beach Brands, Inc., located in Byhalia, Mississippi. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on April 11, 2024.

The proposed subzone (47.95 acres) is located at 647 East Stonewall Road in Byhalia, Mississippi. No authorization for production activity has been requested at this time. The proposed subzone would be subject to the existing activation limit of FTZ 262.

In accordance with the FTZ Board's regulations, Camille Evans of the FTZ Staff is designated examiner to review the application and make recommendations to the Executive Secretary.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is May 28, 2024. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to June 10, 2024.

A copy of the application will be available for public inspection in the "Online FTZ Information Section" section of the FTZ Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Camille Evans at Camille.Evans@trade.gov.

Dated: April 11, 2024.

Elizabeth Whiteman,

Executive Secretary.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; SABIT Participant Application, Participant Surveys, Alumni Survey

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before June 17, 2024.

ADDRESSES: Interested persons are invited to submit written comments by mail to Tracy Rollins, POC, Director SABIT Program, International Trade Administration, 1401 Constitution Avenue NW, HCHB 12030, Washington, DC 20230, or by email to tracy.rollins@trade.gov or PRA@trade.gov. Please reference OMB Control Number 0625-0225 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Tracy Rollins, POC, Director SABIT Program, International Trade Administration, address: 1401 Constitution Avenue NW, HCHB 12030, Washington, DC 20230, telephone: (202) 482-0392, or by email: tracy.rollins@trade.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The SABIT Program of the Department of Commerce's International Trade Administration (ITA), is a key element in the U.S. Government's efforts to support the economic transition of Eurasia (the former Soviet Union) and to support economic growth in other regions of the world, including countries in Europe, South Asia, and the

Middle East, et al. SABIT develops and implements two-week training programs in the United States for groups of up to 20 business and government professionals from Eurasia and other regions. These professionals meet with U.S. government agencies, non-governmental organizations and private sector companies in order to learn about various business practices and principles. This unique private sector-U.S. Government partnership was created in order to tap into the U.S. private sector's expertise and to assist developing regions in their transition to market-based economies while simultaneously boosting trade between the United States and other countries. SABIT also develops and implements virtual events for its alumni and other participants that provide industry-specific training on best practices for business and management and fosters contacts with U.S. organizations. Participant applications are needed to enable SABIT to find the most qualified participants for the training programs. Participant pre-program surveys and post-program surveys provide insight as to what the participants have learned, and they are used to improve the content and administration of future programs. Such monitoring and evaluations is required by law (Foreign Aid and Transparency and Accountability Act of 2016). Alumni success story reports/surveys track the success of the program as regards to business ties between the U.S. and the countries SABIT covers. These alumni surveys also serve to provide evaluation information as required under the Foreign Aid and Transparency and Accountability Act of 2016).

The closing date for participant applications is based upon the starting date of the program and is published with the application and on the program's website at www.trade.gov/sabit-program. Pursuant to section 632(a) of the Foreign Assistance Act of 1961, as amended, funding for the programs will be provided through the Agency for International Development (AID).

The SABIT Program has revised the collection instruments. The instruments are very similar to those used by SABIT in past years. However, some wording has been changed to reflect the changing needs of SABIT over time. The changes are relatively minor and most of them are rephrasing of wording. Instructions for filling out the form, methods of submission, and the order of questions have been revised on the Participant Application. These revisions are not expected to increase the response time to complete the instruments. SABIT

only accepts Participant Applications, Pre- and Post-Program surveys, and Alumni Surveys electronically. This is a change from the last collection request.

II. Method of Collection

Participant applications are electronic and are found on *sabit.smapply.us* when available. Pre-program and Post-program surveys are provided electronically with a link to a Survey Monkey site. Alumni Surveys are also gathered via Survey Monkey electronic, web-based forms.

III. Data

OMB Control Number: 0625–0225.

Form Number(s): None.

Type of Review: Regular submission (revision of a currently approved information collection).

Affected Public: Individuals or households; Business or other for-profit organizations.

Estimated Number of Respondents: 3,500.

Estimated Time per Response: Participant application, 3 hours; participant pre-program survey, 1 hour; participant post-program survey, 1 hour; alumni survey, 1 hour.

Estimated Total Annual Burden Hours: 8,500.

Estimated Total Annual Cost to Public: \$14,500.

Respondent's Obligation: Voluntary.

Legal Authority: Section 632(a) of the Foreign Assistance Act of 1961, as amended (the "FAA"), and pursuant to the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2018 (Div. K, P.L. 115–141); Foreign Aid and Transparency and Accountability Act of 2016.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request

to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–HE–P

DEPARTMENT OF COMMERCE

International Trade Administration

[A–588–838]

Clad Steel Plate From Japan: Continuation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) that revocation of the antidumping duty (AD) order on clad steel plate from Japan would likely lead to the continuation or recurrence of dumping and material injury to an industry in the United States, Commerce is publishing a notice of continuation of this AD order.

DATES: Applicable April 10, 2024.

FOR FURTHER INFORMATION CONTACT: Gregory Taushani, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1012.

SUPPLEMENTARY INFORMATION:

Background

On July 2, 1996, Commerce published in the *Federal Register* the AD order on clad steel plate from Japan.¹ On November 1, 2023, the ITC instituted,² and Commerce initiated,³ the fifth

¹ See *Notice of Antidumping Order: Clad Steel Plate from Japan*, 61 FR 34421 (July 2, 1996) (*Order*).

² See *Clad Steel Plate from Japan; Institution of Five-Year Reviews*, 88 FR 75026 (November 1, 2023).

³ See *Initiation of Five-Year (Sunset) Reviews*, 88 FR 74977 (November 1, 2023).

sunset review of the *Order*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its review, Commerce determined that revocation of the *Order* would likely lead to the continuation or recurrence of dumping, and therefore, notified the ITC of the magnitude of the margins of dumping likely to prevail should the *Order* be revoked.⁴

On April 10, 2024, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *Order* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

Scope of the Order

The scope of the order is all clad⁶ steel plate of a width of 600 millimeters (mm) or more and a composite thickness of 4.5 mm or more. Clad steel plate is a rectangular finished steel mill product consisting of a layer of cladding material (usually stainless steel or nickel) which is metallurgically bonded to a base or backing of ferrous metal (usually carbon or low alloy steel) where the latter predominates by weight. Stainless clad steel plate is manufactured to American Society for Testing and Materials (ASTM) specifications A263 (400 series stainless types) and A264 (300 series stainless types).

Stainless clad steel plate is manufactured to American Society for Testing and Materials (ASTM) specifications A263 (400 series stainless types) and A264 (300 series stainless types). Nickel and nickel-base alloy clad steel plate is manufactured to ASTM specification A265. These specifications

⁴ See *Clad Steel Plate from Japan: Final Results of the Expedited Fifth Sunset Review of the Antidumping Duty Order*, 89 FR 15973 (March 6, 2024), and accompanying Issues and Decision Memorandum.

⁵ See *Clad Steel Plate from Japan*, 89 FR 25281 (April 10, 2024) (*ITC Final Determination*).

⁶ Cladding is the association of layers of metals of different colors or natures by molecular interpenetration of the surfaces in contact. This limited diffusion is characteristic of clad products and differentiates them from products metalized in other manners (e.g., by normal electroplating). The various cladding processes include pouring molten cladding metal onto the basic metal followed by rolling; simple hot-rolling of the cladding metal to ensure efficient welding to the basic metal; any other method of deposition of superimposing of the cladding metal followed by any mechanical or thermal process to ensure welding (e.g., electrocladding), in which the cladding metal (nickel, chromium, etc.) is applied to the basic metal by electroplating, molecular interpenetration of the surfaces in contact then being obtained by heat treatment at the appropriate temperature with subsequent cold rolling. See Harmonized Commodity Description and Coding System Explanatory Notes, Chapter 72, General Note (IV)(C)(2)(e).
