### Federal Energy Regulatory Commission

[Project No. 1417-277]

#### Central Nebraska Public Power and Irrigation District; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application to amend the project boundary for the Kingsley Dam Hydroelectric Project No. 1417 (project). The project is located on the North Platte and Platte Rivers in Garden, Keith, Lincoln, Dawson, and Gosper counties, in south-central Nebraska. Commission staff has prepared an Environmental Assessment (EA) for the proposed action.

The EA contains the staff's analysis of the potential environmental effects of the proposed action and concludes that approving the proposed project boundary amendment for the project, Commission staff's recommended measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link.
