

Geological Survey (USGS) National Geospatial Program (NGP) project that encourages citizen participation in volunteer map data collection activities. TNMCorps uses crowdsourcing—new technologies and internet services to georeference and update structure points and related data and share this information with others on map-based internet platforms—to produce volunteered geographic information (VGI). People participating in the crowdsourcing are considered part of the TNMCorps.

In general, the National Structures Dataset (NSD) has been populated with the best available national data. This data has been exposed for initial improvement by TNMCorps volunteers via the online Map Editor (the instrument). In addition, the data goes through a tiered-editing process, which includes peer review and advanced editors. At each stage the data is passed through an automatic “magic filter” to look for data issues before being submitted into the NSD. In addition, data goes through sampling for quality assurance procedures.

Data within the NSD is available to the USGS as well as to the public at no cost via The National Map and US Topo.

Data quality studies in 2012, 2014, and 2018 showed that the volunteers’ actions were accurate and exceeded USGS quality standards. Volunteer-collected data showed an improvement in both location and attribute accuracy for existing data points. Completeness, or the extent to which all appropriate features were identified and recorded, was also improved.

ACTION: Notice of realty action.

SUMMARY: The Bureau of Land Management (BLM) proposes a non-competitive (direct) sale of 307.5 acres of public lands in Sweetwater County, Wyoming, to PacifiCorp. The appraised fair market value for the sale parcel is \$115,000.

Regulations at 43 CFR 2711.3–3(a) allow the direct sale of public lands without competition when a competitive sale is not appropriate and the public interest would best be served by a direct sale. In this case, a competitive sale is not appropriate because the subject lands contain BLM authorized rights-of-way and improvements that directly support the Jim Bridger Power Plant owned by PacifiCorp, rendering the land unusable by the public.

Upon publication of this notice in the **Federal Register**, the public lands described above will be segregated from all forms of appropriation under the public land laws, including the mining laws, except for the sale provisions of FLPMA.

The temporary segregation will terminate upon: (1) issuance of a conveyance document, (2) publication

in the **Federal Register** terminating the segregation, or (3) on April 20, 2026, unless extended by the BLM Wyoming State Director, in accordance with 43 CFR 2711.1–2(d), prior to the expiration date. Upon publication of this notice in the **Federal Register**, the BLM will no longer accept land use applications affecting the identified public lands, except applications to amend previously filed right-of-way applications or existing authorizations to increase the term of the grants in accordance with 43 CFR 2807.15 and 2886.15.

The conveyance document, if issued, will be subject to the following terms, conditions, and reservations:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945).

2. All mineral deposits in the lands so conveyed and to it, or persons authorized by it, the right to prospect for, mine and remove such deposits from the same under applicable law and regulations to be established by the Secretary of the Interior, together with all necessary access and exit rights.

3. All valid existing rights issued prior to conveyance.

4. An appropriate indemnification clause protecting the United States from claims arising out of the conveyee's use, occupancy, or operations on the conveyed lands.

5. Additional terms and conditions that the authorized officer deems appropriate.

In addition to publication in the **Federal Register**, the BLM will also publish this notice in the Rock Springs Rocket Miner newspaper once per week for three consecutive weeks. Only written comments submitted by postal service or overnight mail will be considered as properly filed. Electronic mail, facsimile, or telephone comments will not be considered.

Any adverse comments regarding the sale parcel will be reviewed by the BLM Wyoming State Director or other authorized official of the Department of the Interior, who may sustain, vacate, or modify this realty action in whole or in part. In the absence of any timely filed objections, this realty action will become the final determination of the Department of the Interior.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so. Comments, including names and street addresses of respondents, will be available for public review at the BLM Rock Springs Field Office during regular business hours, except holidays.
