SUPPLEMENTARY INFORMATION:

Title: Requirements To Notify FSIS of Adulterated or Misbranded Product, Prepare and Maintain Written Recall Procedures, and Document Certain HACCP Plan Reassessments.

OMB Number: 0583-0144.

Type of Request: Renewal of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, unadulterated, and properly labeled.

FSIS is requesting renewal of an approved information collection regarding requirements for official establishments to notify FSIS of adulterated or misbranded product, prepare and maintain written recall procedures, and document certain HACCP plan reassessments. There are no changes to the existing information collection. The approval for this

information collection will expire on September 30, 2024.

The regulations at 9 CFR 418.2, 418.3 and 417.4(a)(3) require establishments to notify FSIS that they have shipped or received adulterated or misbranded product in commerce, prepare and maintain written recall procedures, and document HACCP plan reassessments. Accordingly, FSIS requires three information collection activities under these regulations.

First, FSIS requires that official establishments notify the appropriate District Office that an adulterated or misbranded product received by or originating from the establishment has entered commerce, if the establishment believes or has reason to believe that this has happened. Industry representatives of official establishments may notify the District Office directly, notify local FSIS inspection personnel in receiving establishments, or may use FSIS Form 5720-16, *Industry Report of Adulteration*, to notify FSIS that an adulterated or misbranded meat, meat food, poultry, or poultry product was received from or shipped into commerce by the official establishment. The form is available as a paper form and digitally in the Public Health Information System (PHIS).

Second, FSIS requires that establishments prepare and maintain written procedures for the recall of meat and poultry products produced and shipped by the establishment for use should it become necessary for the establishment to remove product from commerce. These written recall procedures have to specify how the establishment will decide whether to conduct a product recall, and how the establishment will affect the recall should it decide that one is necessary.

Finally, FSIS requires that establishments document each reassessment of the establishment's HACCP plans. FSIS requires establishments to reassess their HACCP plans annually and whenever any changes occur that could affect the hazard analysis or alter the HACCP plan. For annual reassessments, if the establishment determines that no changes are necessary, documentation of this determination is not necessary.

FSIS has made the following estimates as part of an information collection assessment.

Estimate of burden: The public reporting burden for this collection of information is estimated to average .232 hours per response.

Respondents: Official meat and poultry products establishments.

Estimated annual number of respondents: 6,300.

Estimated average number of responses per respondent: 6.8.

Estimated annual number of responses: 42,900.

Estimated total annual burden on respondents: 9,960.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record. Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Mailstop 3758, South Building, Washington, DC 20250-3700; 202-720-5046.

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of FSIS' functions, including whether the information will have practical utility; (b) the accuracy of FSIS' estimate of the burden of the proposed collection of information, including the validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20253.
