

DATES: Comments may be submitted on or before May 28, 2024.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OLEM–2018–0368 to EPA online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Elizabeth McDermott, Office of Underground Storage Tanks, Mail Code 5401R, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564–0646; email address: mcdermott.elizabeth@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through April 30, 2024. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on July 11, 2023 during a 60-day comment period (88 FR 44125). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: Subtitle I of the Resource Conservation and Recovery Act (RCRA), as amended, requires that EPA develop standards for Underground Storage

Tank (UST) systems, as may be necessary, to protect human health and the environment, and procedures for approving state programs in lieu of the federal program. EPA promulgated technical and financial requirements for owners and operators of USTs at 40 CFR part 280, and state program approval procedures at 40 CFR part 281. This ICR is a comprehensive presentation of all information collection requirements contained at 40 CFR parts 280 and 281.

The data collected for new and existing UST system operations and financial requirements are used by owners and operators and/or EPA or the implementing agency to monitor results of testing, inspections, and operation of UST systems, as well as to demonstrate compliance with regulations. EPA believes strongly that if the minimum requirements specified under the regulations are not met, neither the facilities nor EPA can ensure that UST systems are being managed in a manner protective of human health and the environment.

EPA uses state program applications to determine whether to approve a state program. Before granting approval, EPA must determine that programs will be no less stringent than the federal program and contain adequate enforcement mechanisms.

Form Numbers: 600–25; 7530–1.

Respondents/affected entities: Facilities that own and operate underground storage tanks (USTs), states that implement the UST programs, and tribes.

Respondent’s obligation to respond: Mandatory (40 CFR part 280).

Estimated number of respondents: 193,876.

Frequency of response: Once, on occasion, annual.

Total estimated burden: 8,332,975 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$689,689,686 (per year), includes \$406,006,490 annualized capital and operation & maintenance costs.

Changes in Estimates: There is a decrease of 389,217 hours in the total estimated respondent burden hours compared with the ICR currently approved by OMB. There is a total decrease in burden hours because the overall number of underground storage tanks decreased while the requirements for each tank owner remained the same.

Courtney Kerwin,

Director, Information Engagement Division.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPP–2024–0139; FRL–11668–01–OCSPP]

Agency Information Collection Activities; Proposed Renewal of an Existing ICR Collection and Request for Comment; Notice of Arrival of Pesticides and Devices Under Section 17(c) of FIFRA

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this document announces the availability of and solicits public comment on the following Information Collection Request (ICR) that EPA is planning to submit to the Office of Management and Budget (OMB): “Notice of Arrival of Pesticides and Devices under section 17(c) of FIFRA,” identified by EPA ICR No. 0152.15 and OMB Control No. 2070–0020. This ICR represents a renewal of an existing ICR that is currently approved through January 31, 2025. Before submitting the ICR to OMB for review and approval under the PRA, EPA is soliciting comments on specific aspects of the information collection that is summarized in this document. The ICR and accompanying material are available in the docket for public review and comment.

DATES: Comments must be received on or before June 24, 2024.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPP–2024–0139, through <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Carolyn Siu, Mission Support Division (7602M), Office of Program Support, Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (703) 719–1649; email address: siu.carolyn@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Notice of Arrival of Pesticides and Devices under section 17(c) of FIFRA.

EPA ICR No.: 0152.15.

OMB Control No.: 2070-0020.

ICR status: This ICR is currently approved through January 31, 2025. Under the PRA, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The U.S. Customs and Border Protection (Customs) regulations at 19 CFR 12.112 require that an importer desiring to import a pesticide or device into the United States shall, prior to the shipment's arrival in the

United States, submit a Notice of Arrival (NOA) of Pesticides and Devices (EPA Form 3540-1 or its Customs-authorized electronic equivalent) to EPA. Once EPA receives the NOA, EPA will determine the disposition of the shipment upon its arrival in the United States. Upon completing its review, the EPA response is sent to the importer of record or licensed customs broker, who must present the NOA to Customs upon arrival of the shipment at the port of entry. This is necessary to ensure that EPA is notified of the arrival of pesticides and pesticidal devices as required under section 17(c) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), and that EPA has the ability to examine such shipments to determine compliance with FIFRA. Customs compares entry documents for the shipment with the NOA and notifies the EPA regional office of any discrepancies. Alternatively, importers may submit NOA information electronically through Customs' Automated Commercial Environment. Most of the electronic filings are automatically processed, and an early indication is provided to the filer if the initial reporting requirements have been met and if the shipment can be released upon arrival at the port of entry. For those filings that do not meet the reporting requirements, automatic checks will be performed to notify the filer of errors.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 26 minutes per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/affected entities: Entities potentially affected are those that are pesticide importers, which include the following North American Industrial Classification System (NAICS) codes ranging from Commercial and Institutional Building Construction (NAICS 236220) to Pesticide and Other Agricultural Chemical Manufacturing (NAICS 325300) and even Public Administration: Executive Offices (NAICS 921110). Other business and institutions that import pesticides include Agriculture, Forestry, Fishing and Hunting (Sector 11), Wholesale Trade, (Sector 42).

Respondent's obligation to respond: Mandatory, per 40 CFR 152.25(f) and FIFRA sections 3 and 25.

Forms: EPA Form 3540-1 or its Customs-authorized electronic equivalent.

Frequency of response: On occasion.

Total estimated number of potential respondents: 92,133.

Total estimated average number of responses for each respondent: 1.

Total estimated annual burden hours: 67,723 hours.

Total estimated annual respondent costs: \$5,478,039, which includes an estimated cost of \$0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is an increase of 26,843 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This change reflects an increase in the annual number of NOAs submitted electronically through the ACE system by 75,892. There is an increase in respondent costs by \$2,724,517. Cost increases are a result of changes to reflect the current wage rates. This is an adjustment.

In addition, OMB has asked the Agency to replace the format EPA has historically used for ICR Supporting Statements with the 18-question format that is used by other federal agencies and departments. The 18-question format is based on the submission instructions to agencies that appear on the OMB submission form. Although this supporting statement has been modified to reflect the 18-question format, the change in format has not changed the information collection activities or related estimated burden and costs. EPA welcomes your feedback on whether this improves the presentation of the information collection activities and related burden and costs estimates.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: April 22, 2024.

Michal Freedhoff,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0228; FR ID 215504]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before June 24, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0228.

Title: Section 80.59, Compulsory Ship Inspections and Ship Inspection Certificates, FCC Forms 806, 824, 827, and 829.

Form No.: FCC Forms 806, 824, 827, and 829.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for profit, not-for-profit institutions, and State, local, or tribal government.

Number of Respondents and Responses: 10,150 respondents and 15,175 responses.

Estimated Time per Response: The actual inspection will take approximately 4 hours to complete. An FCC ship safety certificate will take approximately 0.083 hours (5 minutes) to complete. Providing an entry in the ship's log will take an inspector and ship operator/owner approximately 0.25 hours (15 minutes) each to complete. These estimates are based on FCC staff's knowledge and familiarity with the availability of the data required. Approximately 100 requests for a waiver of the required annual inspection are received each year from the licensees of large oceangoing vessels returning from a foreign port; it is estimated that an engineer or communications specialists would spend two hours preparing such a waiver request. Therefore, the range for completing the information collection requirements is 0.083 hours-4 hours.

Frequency of Response: On occasion, annual, and every five-year reporting requirements, recordkeeping requirement, and third party disclosure requirement.

Obligation to Respond: Required for regulatory or compliance. The statutory authority for this collection 47 U.S.C. 154, 303, 307(e), 309 and 332, unless noted.

Total Annual Burden: 23,229 hours.

Annual Cost Burden: No cost.

Needs and Uses: The requirements contained in § 80.59 are necessary to implement the provisions of section 362(b) of the Communications Act of 1934, as amended, which require the Commission to inspect the radio installation of large cargo ships and certain passenger ships at least once a year to ensure that the radio installation is in compliance with the Communications Act.

Additionally, section 385 of the Communications Act requires the

inspection of small passenger ships at least once every five years, and Subpart T of Part 80 of the Commission's rules requires the inspection of certain vessels operating in the Great Lakes at least once every 48 months.

The Safety Convention—an international treaty (to which the United States (U.S.) is a signatory)—also requires an annual inspection. The Safety Convention permits an Administrator to entrust the inspections to either surveyors nominated for the purpose or to organizations recognized by it. Therefore, the U.S. can have other parties conduct the radio inspection of vessels for compliance with the Safety Convention.

The Commission allows FCC-licensed technicians to conduct these inspections. FCC-licensed technicians not only certify that the ship passed an inspection, but also issue a safety certificate. These safety certificates (FCC Forms 806, 824, 827, and 829) indicate that the vessel complies with the Communications Act, the Commission's rules, and the Safety Convention. These technicians are required to provide a summary of the results of the inspection in the ship's log. In addition, the vessel's owner, operator, or ship's master must certify in the ship's log that the inspection was satisfactory. Inspection certificates issued in accordance with the Safety Convention must be posted in a prominent and accessible place on the ship.

Further, § 80.59(d) states that the Commission may, upon a finding that the public interest would be served, grant a waiver of the annual inspection required by section 362(b) of the Communications Act, for a period of not more than 90 days for the sole purpose of enabling a U.S. vessel to complete its voyage and proceed to a port in the U.S. when an inspection can be held. An information application must be submitted by a ship's owner, operator, or authorized agent. The application must be electronically submitted to the FCC Headquarters (via email to Ghassan.Khalek@fcc.gov, Katie.Knox@fcc.gov, Kathleen.Curameng@fcc.gov, and Thomas.Derenge@fcc.gov) at least three days before the ship's arrival. The application must provide specific information that is contained in § 80.59. The forms to be completed are FCC Forms 806, 824, 827, and 829.

The Commission seeks revision of this OMB control number due to recent amendments to the Safety Convention by way of Resolution Marine Safety Committee (MSC) 496(105) that was adopted on April 28, 2022; as a result of SOLAS revisions of its Passenger Ship Safety Certificate and Cargo Ship
