## II. Additional Information About Commenting on the Proposed Consent Decrees

Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2024-0192, via <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from this docket. EPA may publish any comment received to its public docket. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. For additional information about submitting information identified as CBI, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this document. If EPA cannot read your comment due to technical difficulties

and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <https://www.regulations.gov> website to submit comments to EPA electronically is EPA’s preferred method for receiving comments. The electronic public docket system is an “anonymous access” system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment.

In accordance with the EPA’s “Consent Decrees and Settlement Agreements to Resolve Environmental Claims Against the Agency” (March 18, 2022), for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to a proposed consent decrees for these claims. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decrees if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, or inadequate.

Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked “late.” EPA is not required to consider these late comments.
