DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Mechanical Power Presses Standard

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Occupational Safety & Health Administration (OSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before May 30, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Nicole Bouchet by telephone at 202–693–0213, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: The inspection and certification records required by the Standard on Mechanical Power Presses are intended to ensure that mechanical power presses are in safe operating condition, and that all safety devices are working properly. The failure of these safety devices could cause serious injury or death to a worker. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 15, 2024 (89 FR 11872).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL–OSHA.

Title of Collection: Mechanical Power Presses Standard.

OMB Control Number: 1218–0229.

Affected Public: Private Sector—Businesses or other for-profits.

Total Estimated Number of Respondents: 104,035.

Total Estimated Number of Responses: 62,421.

Total Estimated Annual Time Burden: 20,807 hours.

Total Estimated Annual Other Costs Burden: \$0.

(Authority: 44 U.S.C. 3507(a)(1)(D))

SUPPLEMENTARY INFORMATION:

I. Notice of the Applications for Expansion

OSHA is providing notice that CSA Group Testing & Certification Inc. (CSA), is applying for expansion of the current recognition as a NRTL. CSA requests the addition of ten test standards, and one new testing site, to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL’s scope of recognition includes: (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL’s scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides a final decision on the application. These notices set forth the NRTL’s scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including CSA, which details the NRTL’s scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

CSA currently has twenty-one facilities (sites) recognized by OSHA for product testing and certification, with the headquarters located at: CSA Group

Testing & Certification Inc., 178 Rexdale Boulevard, Etobicoke, Ontario, M9W 1R3, Canada. A complete list of CSA’s scope of recognition is available at <https://www.osha.gov/nationally-recognized-testing-laboratory-program/csa>.

II. General Background on the Application

CSA submitted two applications to OSHA for expansion of the NRTL scope of recognition. The first application, received on January 18, 2022 (OSHA-2006-0042-0037), requested the addition of four standards to the NRTL scope of recognition. The second application, received on July 28, 2022 (OSHA-2006-0042-0038), requested the addition of six standards to the NRTL scope of recognition, as well as the recognition of an additional testing site on the CSA Cleveland Ohio campus. The additional test facility is located at 8801 East Pleasant Valley Road, Cleveland, Ohio 44131. This expansion notice covers the ten standards included in both applications as well as the additional recognized site. OSHA staff performed a detailed analysis of the application packets and reviewed other pertinent information. OSHA performed an on-site review of the additional Cleveland, Ohio site from May 16-17, 2023, in which assessors found some nonconformances with the requirements of 29 CFR 1910.7. CSA addressed these issues sufficiently, and OSHA staff has preliminarily determined that OSHA should grant the applications for test standard expansion and recognition of the additional testing site.

Table 1, below, lists the appropriate test standards found in CSA’s applications for expansion for testing and certification of products under the NRTL Program.

TABLE 1—PROPOSED APPROPRIATE TESTS STANDARDS FOR INCLUSION IN CSA’S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 6A	Electrical Rigid Metal Conduit-Aluminum, Red Brass, and Stainless Steel.
UL 60079-25	Explosive Atmospheres—Part 25: Intrinsically Safe Electrical Systems.
UL 60079-30-1	Explosive Atmospheres—Part 30-1: Electrical Resistance Trace Heating—General and Testing Requirements.
UL 60947-4-1	Low-Voltage Switchgear and Controlgear—Part 4-1: Contactors and Motor-Starters—Electromechanical Contactors and Motor-Starters.
UL 60947-5-1	Low-Voltage Switchgear and Controlgear—Part 5-1: Control Circuit Devices and Switching Elements—Electromechanical Control Circuit Devices.
UL 60947-5-2	Low-Voltage Switchgear and Controlgear—Part 5-2: Control Circuit Devices and Switching Elements—Proximity Switches.
UL 61730-1	Photovoltaic (PV) Module Safety Qualification—Part 1: Requirements for Construction.
UL 61730-2	Photovoltaic (PV) Module Safety Qualification—Part 2: Requirements for Testing.
UL 5085-2	Low Voltage Transformers—Part 2: General Purpose Transformers.
UL 60335-2-8	Household and Similar Electrical Appliances, Part 2: Particular Requirements for Electric Shavers, Hair Clippers and Similar Appliances.

III. Preliminary Findings on the Applications

CSA submitted acceptable applications for expansion of the scope of recognition. OSHA's review of the application files and pertinent documentation indicates that CSA has met the requirements prescribed by 29 CFR 1910.7 for expanding the recognition to include the addition of the ten test standards for NRTL testing and certification listed in Table 1. In addition, CSA has met the requirements for recognition of the additional testing site. This preliminary finding does not constitute an interim or temporary approval of CSA's applications.

OSHA seeks comment on this preliminary determination.

IV. Public Participation

OSHA welcomes public comment as to whether CSA meets the requirements of 29 CFR 1910.7 for expansion of recognition as a NRTL. Comments should consist of pertinent written documents and exhibits.

Commenters needing more time to comment must submit a request in writing, stating the reasons for the request by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer time period. OSHA may deny a request for an extension if it is not adequately justified.

To review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor. These materials also are generally available online at <https://www.regulations.gov> under Docket No. OSHA-2006-0042 (for further information, see the "Docket" heading in the section of this notice titled ADDRESSES).

OSHA staff will review all comments to the docket submitted in a timely manner. After addressing the issues raised by these comments, staff will make a recommendation to the Assistant Secretary of Labor for Occupational Safety and Health on whether to grant CSA's application for expansion of the scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of the final decision in the **Federal Register**.

V. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 8-2020 (85 FR 58393, Sept. 18, 2020), and 29 CFR 1910.7.

Signed at Washington, DC.

James S. Frederick,

Deputy Assistant Secretary of Labor for Occupational Safety and Health.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The purpose of these requirements is the agency uses the information collected on the OSHA-7 Form to determine whether or not reasonable grounds exist to conduct an inspection of the workplace. The
