SUPPLEMENTARY INFORMATION:

The Petitions

On March 14, 2024, the U.S. Department of Commerce (Commerce) received antidumping duty (AD) petitions concerning imports of 2,4-dichlorophenoxyacetic acid (2,4-D) from China and India filed in proper form on behalf of Corteva Agriscience LLC (the petitioner) ¹ a domestic producer of 2,4-D. These AD Petitions were accompanied by countervailing duty (CVD) petitions concerning imports of 2,4-D from China and India.² On April 3, 2024, after considering comments regarding industry support, Commerce extended the initiation deadline by 20 days to further examine the issue of industry support, because it was not clear from the Petitions whether the industry support criteria had been met.³

Between March 18 and April 4, 2024, Commerce requested supplemental information pertaining to certain aspects of the Petitions in separate supplemental questionnaires.⁴ The

petitioner filed responses to the supplemental questionnaires between March 20 and April 9, 2024.⁵

In accordance with section 732(b) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that imports of 2,4-D from China and India are being, or are likely to be, sold in the United States at less than fair value (LTFV) within the meaning of section 731 of the Act, and that imports of such products are materially injuring, or threatening material injury to, the 2,4-D industry in the United States. Consistent with section 732(b)(1) of the Act, the Petitions were accompanied by information reasonably available to the petitioner supporting its allegations.

Commerce finds that the petitioner filed the Petitions on behalf of the domestic industry, because the petitioner is an interested party, as defined in section 771(9)(C) of the Act. Commerce also finds that the petitioner demonstrated sufficient industry support for the initiation of the requested LTFV investigations.⁶

Periods of Investigation

Because the Petitions were filed on March 14, 2024, pursuant to 19 CFR 351.204(b)(1), the period of investigation (POI) for the India LTFV investigation is January 1, 2023, through December 31, 2023. Because China is a non-market economy (NME) country, pursuant to 19 CFR 351.204(b)(1), the POI for the China LTFV investigation is July 1, 2023, through December 31, 2023.

Scope of the Investigations

The product covered by these investigations is 2,4-D from China and India. For a full description of the scope of these investigations, see the appendix to this notice.
