SUPPLEMENTARY INFORMATION:

Title: FERC-587, Land Description: Public Land States/Non-Public Land States.

OMB Control No.: 1902-0145.

Type of Request: Three-year extension of the FERC-587 information collection requirements with no changes to the current reporting requirements.

Abstract: Section 24 of the Federal Power Act (FPA) ¹ requires the Commission to conduct this collection of information, which pertains to applications proposing hydropower projects, or changes to existing

hydropower projects, within “lands of the United States.” FERC Form 587 ² consolidates the required information, including a description of the applicable U.S. lands and identification of hydropower project boundary maps associated with the applicable U.S. lands. An applicant must send FERC Form 587 both to the Commission and to the Bureau of Land Management (BLM) ³ state office where the project is located. The information consolidated in FERC Form 587 facilitates the reservation of U.S. lands as hydropower sites and the withdrawal of such lands from other uses.

Type of Respondents: Applicants proposing hydropower projects, or changes to existing hydropower projects, within lands of the United States.

Estimate of Annual Burden: The Commission estimates the average annual burden ⁴ and cost ⁵ for this information collection as follows.

A. Number of respondents	B. Annual number of responses per respondent	C. Total number of responses (Column A × Column B)	D. Average hour burden & cost per response	E. Total annual burden hours & total annual cost (Column C × Column D)	F. Cost per respondent (\$) (Column E ÷ Column A)
70	1	70	1 hour; \$100.00	70 hours; \$7,000	\$100.00

Comments: Comments are invited on: (1) whether the collections of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collections of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collections; and (4) ways to minimize the burden of the collections of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

II. What is the Agency’s authority for taking this action?

EPA is conducting its registration review of the chemicals listed in the table 1 of unit I pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136a(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). As part of the registration review process, the Agency has completed a proposed interim or proposed decision for each of the pesticides listed in Table 1 of Unit I.

The registration review docket for a pesticide includes documents related to the registration review case. Among

other things, these documents describe EPA’s rationales for conducting additional risk assessments for the registration review of the pesticides included in Table 1 of Unit I, as well as the Agency’s subsequent risk findings and consideration of possible risk mitigation measures. The proposed interim and proposed registration review decisions are supported by the rationales included in those documents.

Consistent with 40 CFR 155.58(a), EPA provides for at least a 60-day public comment period on proposed interim and proposed registration review decisions. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the proposed decision.

For additional background on the registration review program, see: <https://www.epa.gov/pesticide-reevaluation>.

III. Does this action apply to me?

This notice is directed to the public in general and may be of interest to a

wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the Chemical Review Manager for the pesticide of interest identified in table 1 of unit I.

IV. What should I consider as I prepare my comments for EPA?

In submitting a comment to EPA, please consider the following:

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all the information that you claim to be CBI. For CBI information on a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM
