SUPPLEMENTARY INFORMATION:**I. Abstract**

This is a request for a new generic clearance to collect data to help to ensure grants, cooperative agreements and other Federal financial assistance programs are awarded to applicants best suited to perform the functions of the awards.

Periodically Commerce solicits grant applications on *http://grants.gov* by issuing a Funding Opportunity Announcement, Request for Applications, Notice of Funding Announcement, Notice of Solicitation of Applications, *Grants.gov* announcement, or other funding

announcement type. Applicants are generally required to perform two pre-award steps. The first part of Commerce grant applications consists of submitting the application form(s), which includes the Standard Form 424, Application for Federal Assistance and may include additional standard grant application forms. The second part of a grant application usually requires a technical proposal demonstrating the applicant's capabilities in accordance with a statement of work or selection criteria and other related information as specified in the funding announcement. Following the grant award, the grant awardee may also be required to provide progress reports or additional documents.

In addition to grants and agreements, there are other types of funding announcements. Commerce agencies announce new Federal financial assistance programs in the **Federal Register** in a Notice of Funding Availability (NOFA) or other types of funding or program announcements. Generally, the applicants need to apply for financial assistance under the new program. The agencies generally require application forms and related forms for the applicants to apply for Federal financial assistance.
