SUPPLEMENTARY INFORMATION:**I. Additional Information About the
Proposed Consent Decree**

On March 18, 2024, Sierra Club, the West Virginia Highlands Conservancy, Inc., and the West Virginia Rivers Coalition, Inc. (collectively, "Plaintiffs") filed a complaint in Federal district court asserting that EPA failed to perform a mandatory duty under the Clean Water Act (CWA) to establish total maximum daily loads (TMDLs) for certain waters located in the Lower Guyandotte River Watershed in West

Virginia that are biologically impaired due to ionic toxicity (Ionic Toxicity TMDLs). This complaint followed Plaintiffs' submission to EPA of a Notice of Intent to Sue (NOI) on March 21, 2023. Following submission of the NOI, Plaintiffs and EPA initiated settlement discussions, which resulted in the proposed consent decree. Under the consent decree, EPA would be obligated to establish Ionic Toxicity TMDLs for 11 waterbody segments in the Lower Guyandotte River Watershed by January 15, 2025. In exchange, Plaintiffs would permanently release any and all claims against EPA that the Agency must establish ionic toxicity TMDLs for any other waterbody segments within the Lower Guyandotte River Watershed except for six identified waterbody segments and any waterbody segments that are listed as biologically impaired for the first time after June 1, 2023. For those six waterbody segments and any waterbody segments listed as biologically impaired for the first time after June 1, 2023, Plaintiffs would refrain from bringing any such claims against EPA until January 15, 2039. Further, Plaintiffs would not bring such claims against EPA for any West Virginia waterbody segment outside the Lower Guyandotte River Watershed until after January 15, 2025.

In accordance with the EPA Administrator's March 18, 2022, memorandum regarding "Consent Decrees and Settlement Agreements to resolve Environmental Claims Against the Agency," the EPA provided notice of the proposed consent decree in *Sierra Club, et al. v. EPA, et al.*, No. 3:24–cv–00130 (S.D.W. Va. 2024) on March 29, 2024. 89 FR 22140–41. The EPA is reopening the public comment period. Written comments on the proposed consent decree must now be received by May 31, 2024. EPA seeks public input prior to its final decision-making with regard to potential settlement of the litigation. EPA will accept written comments relating to the proposed consent decree from persons who are not parties to the litigation. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments received disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the CWA.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement agreement; request for public comment.

SUMMARY: In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed settlement agreement in *Nevada Cement Co., LLC v. EPA et al.* On April 14, 2023, Plaintiff Nevada Cement Company, LLC filed a petition for review in the United States

Court of Appeals for the Ninth Circuit in Case No. 23-682. On June 5, 2023, Plaintiff filed a petition for review in the same court in Case No. 23-1098. The proposed settlement agreement would establish a process and deadlines by which Plaintiff would apply to EPA for a Case-by-Case Emissions Limit Request for its Fernley, Nevada, facility, in exchange for agreeing to lift a judicial stay entered by the U.S. Court of Appeals for the Ninth Circuit.

DATES: Written comments on the proposed settlement agreement must be received by May 31, 2024.
