SUPPLEMENTARY INFORMATION:

I. Background

With some exceptions, the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), prohibits the take and importation of marine mammals and marine mammal products absent Federal authorization. In carrying out our responsibilities under the MMPA, we, the U.S. Fish and Wildlife Service (Service), may authorize such activities via permits after receipt of an application and verification that MMPA statutory and regulatory requirements are met.

Section 104(c) of the MMPA specifies the conditions for authorizing the taking or importation of a marine mammal for purposes of scientific research, public display, or enhancing the survival or recovery of a species or stock under the MMPA.

This notice provides information about two aspects of the MMPA permitting process: application and issuance. At section II, we provide the public with notice of and the opportunity to comment on applications that we have received from entities or individuals to conduct certain activities with marine mammals for which the Service has jurisdiction under the MMPA. At section III, we announce recently issued MMPA permits to entities or individuals in response to prior applications.

II. Applications Available for Public Review

To help us carry out our conservation responsibilities for affected species, and in consideration of section 104(c) of the MMPA, we invite the public and local, State, Tribal, and Federal agencies to comment on the applications listed below before final action is taken. Concurrent with publishing this notice in the **Federal Register**, we are forwarding copies of these marine mammal applications to the Marine Mammal Commission and the Committee of Scientific Advisors for their review.
