Notification to Interested Parties

This list of scope ruling applications is not an identification of scope inquiries that have been initiated. In accordance with 19 CFR 351.225(d)(1), if Commerce has not rejected a scope ruling application nor initiated the scope inquiry within 30 days after the filing of the application, the application will be deemed accepted and a scope inquiry will be deemed initiated the following day—day 31.⁵ Commerce’s practice generally dictates that where a deadline falls on a weekend, Federal holiday, or other non-business day, the appropriate deadline is the next business day.⁶ Accordingly, if the 30th day after the filing of the application falls on a non-business day, the next business day will be considered the “updated” 30th day, and if the application is not rejected or a scope inquiry initiated by or on that particular business day, the application will be deemed accepted and a scope inquiry will be deemed initiated on the next business day which follows the “updated” 30th day.⁷

In accordance with 19 CFR 351.225(m)(2), if there are companion AD and CVD orders covering the same merchandise from the same country of origin, the scope inquiry will be conducted on the record of the AD proceeding. Further, please note that pursuant to 19 CFR 351.225(m)(1), Commerce may either apply a scope ruling to all products from the same country with the same relevant physical characteristics, (including chemical, dimensional, and technical characteristics) as the product at issue, on a country-wide basis, regardless of the producer, exporter, or importer of those products, or on a company-specific basis.

⁵ In accordance with 19 CFR 351.225(d)(2), within 30 days after the filing of a scope ruling application, if Commerce determines that it intends to address the scope issue raised in the application in another segment of the proceeding (such as a circumvention inquiry under 19 CFR 351.226 or a covered merchandise inquiry under 19 CFR 351.227), it will notify the applicant that it will not initiate a scope inquiry, but will instead determine if the product is covered by the scope at issue in that alternative segment.

scope inquiries, please refer to the Filing Instructions section of the Scope Ruling Application Guide, at https://access.trade.gov/help/Scope_Ruling_Guidance.pdf. Interested parties, apart from the scope ruling applicant, who wish to participate in a scope inquiry and be added to the public service list for that segment of the proceeding must file an entry of appearance in accordance with 19 CFR 351.103(d)(1) and 19 CFR 351.225(n)(4). Interested parties are advised to refer to the case segment in ACCESS as well as 19 CFR 351.225(f) for further information on the scope inquiry procedures, including the timelines for the submission of comments.

Please note that this notice of scope ruling applications filed in AD and CVD proceedings may be published before any potential initiation, or after the initiation, of a given scope inquiry based on a scope ruling application identified in this notice. Therefore, please refer to the case segment on ACCESS to determine whether a scope ruling application has been accepted or rejected and whether a scope inquiry has been initiated.

Interested parties who wish to be served scope ruling applications for a particular AD or CVD order may file a request to be included on the annual inquiry service list during the anniversary month of the publication of the AD or CVD order in accordance with 19 CFR 351.225(n) and Commerce’s procedures.⁸

Interested parties are invited to comment on the completeness of this monthly list of scope ruling applications received by Commerce. Certain Activated Carbon From the People’s Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2022–2023

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily finds that certain activated carbon (activated carbon) from the People’s Republic of China (China) was sold in the United States at prices below normal value (NV) during the period of review (POR), April 1, 2022, through March 31, 2023. We invite interested parties to comment on these preliminary results of review.

DATES: Applicable May 2, 2024.

FOR FURTHER INFORMATION CONTACT: Andrew Hart or Katie Smith, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1058 or (202) 482–0557, respectively.

SUPPLEMENTARY INFORMATION:

Background

On April 27, 2007, Commerce published in the **Federal Register** the antidumping duty (AD) order on activated carbon from China.¹ On April 4, 2023, Commerce published in the **Federal Register** a notice of opportunity to request an administrative review of the *Order*, covering the POR, pursuant to section 751(a)(1) of the Tariff Act of 1930, as amended (the Act).² On June 12, 2023, based on timely requests for review from certain interested parties,³

Commerce initiated an administrative review of the *Order* covering the POR.⁴ The administrative review covers 20 companies including the two mandatory respondents, Jilin Bright Future Chemicals Co., Ltd. (Jilin Bright) and Ningxia Guanghua Cherishment Activated Carbon Co., Ltd. (GHC). On December 6, 2023, Commerce extended the deadline for the preliminary results of this review until April 26, 2024.⁵

Scope of the Order

The product covered by the *Order* is activated carbon from China. For a full description of the scope of the *Order*, see the Preliminary Decision Memorandum.⁶

Separate Rates

Commerce preliminarily determines that Jilin Bright and GHC, the companies individually examined in this review, and the 12 companies, not individually examined and listed in Appendix II to this notice, are eligible to receive separate rates in this administrative review.⁷

The Act and Commerce’s regulations do not address the establishment of a separate rate to be applied to companies not selected for individual examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when calculating the rate for separate rate respondents which Commerce did not

examine individually in an administrative review. Section 735(c)(5)(A) of the Act states that the all-others rate should be calculated by averaging the weighted-average dumping margins calculated for individually-examined respondents, excluding dumping margins that are zero, *de minimis*, or based entirely on facts available.

For the preliminary results of this review, Commerce determined the estimated dumping margins for Jilin Bright and GHC are \$2.01/kg and \$1.17/kg respectively. For the reasons explained in the Preliminary Decision Memorandum, we are assigning to the 12 non-examined respondents which qualify for a separate rate in this review, an estimated dumping margin of \$1.43/kg, consistent with Commerce’s practice and section 735(c)(5)(A) of the Act.

China-Wide Entity

Under Commerce’s policy regarding the conditional review of the China-wide entity,⁸ the China-wide entity will not be under review unless a party specifically requests, or Commerce self-initiates, a review of the entity. Because no party requested a review of the China-wide entity in this review, the entity is not under review, and the entity’s rate (*i.e.*, \$2.42/kilogram) is not subject to change.⁹ For the reasons explained in the Preliminary Decision Memorandum, Commerce considers certain companies for which a review was requested and which did not demonstrate separate rate eligibility,

listed in Appendix II to this notice, to be part of the China-wide entity.¹⁰

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(B) of the Act. We calculated export price in accordance with section 772 of the Act. Because China is a non-market economy country within the meaning of section 771(18) of the Act, we calculated NV in accordance with section 773(c) of the Act.

For a full description of the methodology underlying our preliminary results, see the Preliminary Decision Memorandum.¹¹ A list of topics discussed in the Preliminary Decision Memorandum is included as the appendix to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). Disclosure and Public Comment

Commerce intends to disclose the calculations performed for these preliminary results to interested parties within five days after public announcement, or if there is no public announcement, within five days of the date of publication of this notice in the **Federal Register**.¹⁶

Pursuant to 19 CFR 351.309(c), interested parties may submit case briefs to Commerce no later than 30 days after the date of publication of this notice.¹⁷ Rebuttal briefs, limited to issues raised in the case briefs, may be filed no later than five days after the date for filing case briefs.¹⁸ Interested parties who submit case briefs or rebuttal briefs in this proceeding must submit: (1) a table of contents listing each issue; and (2) a table of authorities.¹⁹

As provided under 19 CFR 351.309(c)(2) and (d)(2), in prior proceedings we have encouraged interested parties to provide an executive summary of their brief that should be limited to five pages total, including footnotes. In this review, we instead request that interested parties provide at the beginning of their briefs a public, executive summary for each issue raised in their briefs.²⁰ Further, we request that interested parties limit their public executive summary of each issue to no more than 450 words, not including citations. We intend to use the public executive summaries as the basis of the comment summaries included in the issues and decision memorandum that will accompany the final results in this administrative review. We request that interested parties include footnotes for relevant citations in the public executive summary of each issue. Note that Commerce has amended certain of its

If a request for a hearing is made, Commerce intends to hold a hearing at a time and date to be determined.²² Parties should confirm the date, time, and location of the hearing two days before the scheduled date.

All submissions, including case and rebuttal briefs, as well as hearing requests, should be filed using ACCESS.²³ An electronically-filed document must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Time on the established deadline.

Assessment Rates

In accordance with section 751(a)(2)(C) of the Act, the final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by this review. Upon completion of the final results, Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review.²⁴

If the individually examined respondents' weighted-average dumping margins are above *de minimis* (i.e., 0.50 percent) in the final results of this review, we will calculate importer-specific per-unit assessment rates for each respondent by dividing the total amount of dumping calculated for examined sales to the importer or customer by the total sales quantity associated with those transactions. Where an importer-specific or customer-specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

²¹ See *APO and Service Final Rule*, 88 FR at 67077.

²² See 19 CFR 351.310(d).

²³ See 19 CFR 351.303.

²⁴ See 19 CFR 351.212(b)(1).

For entries that were not reported in the U.S. sales database submitted by each mandatory respondent individually examined during this review, Commerce will instruct CBP to liquidate such entries at the China-wide rate.²⁵

For the respondents that were not selected for individual examination in this administrative review but qualified for a separate rate, the per unit assessment rate will be the rate established for these companies in the final results of review.

For the final results of this review, if we continue to treat the six companies identified in Appendix II to this notice as part of the China-wide entity, we will instruct CBP to apply the China-wide per-unit assessment rate to all entries of subject merchandise during the POR which were exported by those companies.

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (i.e., within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) for the subject merchandise exported by the companies listed above that have a separate rate, the cash deposit rate will be equal to the weighted-average dumping margin established in the final results of this administrative review (except, if the rate is zero or *de minimis*, then zero cash deposit will be required); (2) for previously investigated or reviewed Chinese and non-Chinese exporters not listed above that received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the existing exporter-specific rate; (3) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will

²⁵ For a full discussion of this practice, see *Non-Market Economy Antidumping Proceedings: Assessment of Antidumping Duties*, 76 FR 65694 (October 24, 2011).

be that for the China-wide entity; and (4) for all non-Chinese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these preliminary results of review in accordance with sections 751(a)(l) and 777(i)(l) of the Act, and 19 CFR 351.213 and 19 CFR 351.221(b)(4).

Dated: April 26, 2024.

SUPPLEMENTARY INFORMATION:

Background

On April 28, 2023, we received a request from The Mosaic Company (the petitioner) to conduct an administrative review with respect to OCP S.A. (OCP).¹ On June 12, 2023, Commerce published a notice of initiation of an administrative review of the countervailing duty (CVD) order on phosphate fertilizers from Morocco.² On December 12, 2023, Commerce extended the deadline for the preliminary results of this review until April 26, 2024.³

Preliminary Results of Review

As a result of this review, we preliminarily determine the following net countervailable subsidy rate for the period January 1, 2022, through December 31, 2022:
