Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of any environmental document cannot also intervene. See 94 FERC ¶ 61,076 (2001).

k. *Deadline for filing comments, motions to intervene, and protests*: May 28, 2024.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using

the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

1. *Description of Request*: The exemptee requests to surrender the exemption for the Elmer Smith Hydroelectric Project. The exemptee states that on June 1, 2020, it retired the Elmer Smith Generating Station, including its circulating water system. As a result, the hydroelectric plant no longer had a water source. Following the plant's retirement, the exemptee began decommissioning the station, including the removal of electrical equipment within the hydroelectric facility. The decommissioning did not result in any adverse impacts to water quality or negatively affect environmental, recreational, or historic properties. As proposed, the hydroelectric structures would remain in place, as well as the plant discharge flume for potential future use. The project is fully within the exemptee's property limits, and the exemptee intends to maintain ownership of the land for the foreseeable future.

In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.
