SUPPLEMENTARY INFORMATION: On March 10, 2023, Gulfstream LNG filed an Application requesting long-term, multi-contract authorization to export domestically produced LNG in a volume equivalent to 237.5 billion cubic feet per year (Bcf/yr) of natural gas from the proposed Gulfstream LNG Project (Project), a LNG export project to be located in Plaquemines Parish, Louisiana. In the portion of the Application relevant here, Gulfstream LNG is seeking to export this LNG to any country with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by United States law or policy (non-FTA countries), under section 3(a) of the NGA.¹ In the Application, Gulfstream LNG proposed to construct and locate the Project “on an approximately 500-acre parcel of land south of the town of Belle Chasse, Plaquemines Parish, Louisiana.”²

In the Amendment to the Application, Gulfstream LNG indicates that it was necessary to change the site for the Project. The new site “is on an approximate 418-acre parcel of land located south of the town of Belle Chasse, Plaquemines Parish, Louisiana, just three miles downstream on the same side of [the] river from the original site.”³ Gulfstream LNG states that it has executed a Ground Lease for the new Project site with the owner of the site, Magnolia Terminal, LLC, which is attached to the Amendment as Exhibit A. Gulfstream LNG further states that the new site does not necessitate any

¹ 15 U.S.C. 717b(a). On June 26, 2023, in DOE/FECM Order No. 5014, DOE granted the portion of the Application requesting authorization to export LNG to FTA countries under section 3(c) of the NGA, 15 U.S.C. 717b(c). That authorization is not subject to this Notice.

other changes to the Project, and therefore “this Amendment does not affect any other part of Gulfstream LNG’s original Application.”⁴ On April 4, 2024, Gulfstream LNG submitted a revised Exhibit B to the Amendment showing the map and site plan for the Project.
