C. The Exemption Is Otherwise in the Public Interest

The proposed exemption would allow VistraOps to load two MPC-89-CBS in the HI-STORM F/W MPC Storage System in August 2024, at the Perry ISFSI, even though the CBS variant basket design is not part of the approved CoC No. 1032, Amendment No. 5. According to VistraOps, the exemption is in the public interest because not being able to load fuel into the two MPC-89-CBS baskets during the August 2024 loading campaigns would impact VistraOps's ability at Perry to maintain full-core offload capability, consequently increasing risk and challenges to continued safe reactor operation.

VistraOps stated that to delay the August 2024 loading of the two MPC-89-CBS baskets at Perry would impact the ability to maintain a healthy margin in the spent fuel pool in support of a full-core discharge capability. VistraOps stated that not loading the two MPC-89-CBS spent fuel canisters for storage on the ISFSI pad in August 2024, decreases the margin to full-core offload to 555 open cells in the spent fuel pool. There are two refueling outages planned for 2025 and 2027 that would decrease the full-core offload margin to an insufficient number of open fuel cells (a deficit of 25 open cells) due to the planned discharges of 288 and 292 fuel bundles, respectively. That is, the Perry spent fuel pool would lose full-core offload in 2027 and would not regain full-core offload, and margin to full-core offload, until the 2028 spent fuel loading campaign. Having no full-core offload capability for over a year of operation at Perry is an unnecessary risk to the operation of the plant, spent fuel pool inventory and operations. In order to regain full-core offload prior to the 2028 spent fuel loading campaign, non-fuel components stored in the pool would need to be relocated, which involves additional resources, dose, and risk to perform the relocations.

For the reasons described by VistraOps in its exemption request, the NRC agrees that it is in the public interest to grant the exemption. If the exemption is not granted, in order to comply with the CoC, VistraOps would have to keep spent fuel in the spent fuel pool if it is not permitted to be loaded into casks in the August 2024 spent fuel loading, thus impacting Perry's ability to effectively manage the margin for full-core discharge capacity. As explained by VistraOps, increased inventory of fuel in the spent fuel pool

could result in the need for relocation or movement of non-fuel components and, therefore, an increase in worker doses and the potential for accidents that accompany increased movement of radioactive material. Moreover, should spent fuel pool capacity be reached, the ability to refuel the operating reactor unit is challenged, thus potentially impacting continued reactor operations.

Therefore, the staff concludes that approving the exemption is in the public interest.

Environmental Consideration

The NRC staff also considered whether there would be any significant environmental impacts associated with the exemption. For this proposed action, the NRC staff performed an environmental assessment pursuant to 10 CFR 51.30. The environmental assessment concluded that the proposed action would not significantly impact the quality of the human environment. The NRC staff concluded that the proposed action would not result in any changes in the types or amounts of any radiological or non-radiological effluents that may be released offsite, and there would be no significant increase in occupational or public radiation exposure because of the proposed action. The environmental assessment and the finding of no significant impact was published on May 8, 2024 (89 FR 38926).

IV. Conclusion

Based on these considerations, the NRC has determined that, pursuant to 10 CFR 72.7, the exemption is authorized by law, will not endanger life or property or the common defense and security, and is otherwise in the public interest. Therefore, the NRC grants VistraOps an exemption from the requirements of §§ 72.212(a)(2), 72.212(b)(3), 72.212(b)(5)(i), 72.212(b)(11), and 72.214 with respect to the loading of two HI-STORM F/W MPC Storage System in MPC-89-CBS beginning in August 2024.

This exemption is effective upon issuance.

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the Market Dominant or the Competitive product list, or the modification of an existing product currently appearing on the Market Dominant or the Competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any,

can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern Market Dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3030, and 39 CFR part 3040, subpart B. For request(s) that the Postal Service states concern Competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3040, subpart B. Comment deadline(s) for each request appear in section II.

[Release No. 34–100094; File No. SR–LCH SA–2024–002]

Self-Regulatory Organizations; LCH SA; Notice of Designation of Longer Period for Commission Action on Proposed Rule Change Relating to the CDS Clear Select Membership Model

May 9, 2024.

On March 13, 2024, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (“Exchange Act”)¹ and Rule 19b–4² thereunder, Banque Centrale de Compensation, which conducts business under the name LCH SA (“LCH SA”), filed with the Securities and Exchange Commission (“Commission”) the proposed rule change SR–LCH SA–2024–002 regarding its CDS Clear select membership model (the “Proposed Rule Change”). The Proposed Rule Change was published for public comment in the **Federal Register** on March 28, 2024.³ The Commission has not received comments regarding the proposal described in the Proposed Rule Change.

Section 19(b)(2) of the Exchange Act⁴ provides that, within 45 days of the publication of notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding, or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether the proposed rule change should be disapproved. The 45th day after publication of the Notice is May 12, 2024. The Commission is extending this 45-day time period.
