The kinds of data collected from the report include name of the startup company, information on the principal investigator (PI) (name, email address, and phone number), the number of full-time equivalent (FTE) employees working at the startup, amount of funding received during the award period. In addition, information pertaining to company officers and key personnel, their corresponding ownership status, and their levels of efforts provided to the startups are also requested. Collectively, these data will enable the managing Program Directors to (1) evaluate a given company's business structure, (2) ascertain the level of commitment of the PI(s), co-PI(s), and key personnel to the startup venture, and (3) identify conflicts of interests (if any), as part of the due diligence process that the programs undertake to verify that there are no fraudulent or inappropriate business practices.

The report also asks about: inputs (*i.e.*, project expenditures, efforts exerted by key personnel), outputs (*i.e.*, R&D activities, technical progresses), outcomes (*i.e.*, research milestones, fundraising activities), and impacts (*i.e.*, technical and/or commercial successes).

Finally, the report also requests: (1) a discussion of progresses highlighting key technical and commercial activity/results during the reporting period, (2) compliance requirements checklists from the Small Business Administration (SBA) and NSF, and (3) a Gantt chart describing the project status, as well as task assignments to key personnel in the project.

Use of the Information: The data collected will be used primarily for award monitoring. The data could also be used for congressional requests, inquiries from the NSF's Office of the Inspector General, supporting evidence of litigations, auditing, and other legal investigations, NSF internal reports, and program evaluations, if necessary.

Estimate of Burden: The estimated number of respondents is: 410. Average time to complete the interim report: 18 hours. The estimated total burden hours: 7,380 hours per year.

Respondents: The respondents are either PIs or Co-PIs listed on the NSF SBIR/STTR Proposals, Founders, and/or Co-founders of the startups funded by the NSF SBIR/STTR programs.
