Abstract of Information Available

Based on the information available, human remains representing, at least, one individual have been reasonably identified. No associated funerary objects are present. On an unknown date, the individual (VM-091) identified as "Comanche" was removed from an unknown geographic location in Texas. On an unknown date, the individual was obtained by Raymond C. Vietzen (1907-1995). Vietzen, an avocational archaeologist, collector, and author,

established the Indian Ridge Museum in Elyria, Ohio, and the Archaeological Society of Ohio (formerly the Ohio Indian Relic Collectors Society). The Indian Ridge Museum, founded in the 1930s, served as Vietzen's laboratory and repository, and it remained in operation until the mid-1990s. After Vietzen's death, the facility fell into disrepair, and most of the items he had acquired and housed at the museum were sold. In 1998, the Ohio Historical Society (presently the Ohio History Connection) removed ancestral human remains and some of the remaining items from the facility and temporarily housed them at the Ohio Historical Society. In October of 2003, these remains were transferred from the Ohio Historical Society to Mercyhurst College (presently Mercyhurst University).

While there is no record regarding potentially hazardous substances having been used to treat the human remains, unidentified adhesives are present. It is unknown when the adhesives were applied. The human remains may have been treated with an unidentified preservative coating, consolidant, or sealant. It is unknown when this unidentified substance may have been applied.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the human remains described in this notice.

Determinations

Mercyhurst University has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- There is a reasonable connection between the human remains described in this notice and the Comanche Nation, Oklahoma.

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains in this notice to a requestor may occur on or after June 20, 2024. If competing requests for repatriation are received, Mercyhurst University must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. Mercyhurst University is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.
