SUPPLEMENTARY INFORMATION: In the **Federal Register** of March 12, 2024 (89 FR 18262), FDA published a proposed rule entitled “Labeling Requirements for Approved or Conditionally Approved New Animal Drugs” with a 90-day

period for submission of public comments.

The Agency has received a request for an extension of the comment period for the proposed rule. The request conveyed concern that the current comment period does not allow sufficient time to develop a meaningful or thoughtful response to the proposed rule.

FDA has considered the request and is extending the comment period for the proposed rule for 60 days, until August 9, 2024. The Agency believes that a 60-day extension allows adequate time for interested persons to submit comments without significantly delaying rulemaking on these important issues.

NPRM Notice of proposed rulemaking

II. Background, Purpose, and Legal Basis

The Coast Guard began issuing temporary final rules establishing safety zones during the Valdez July 4th fireworks display beginning in 2014. The Coast Guard received no comments or concerns from the public when the temporary safety zones were in place. Due to the repeating nature of the event, on February 28, 2017, the Coast Guard published a notice of proposed rulemaking (NPRM) titled Safety Zone; City of Valdez July 4th Fireworks, Port Valdez; Valdez, AK (82 FR 12076). There we stated why we issued the NPRM and invited comments on our proposed regulatory action related to this fireworks display. Since then, the City of Valdez has changed the firework display from July 4th to December 31st. The Coast Guard again began issuing temporary final rules annually for the new date. Again, due to the repeating nature of the event, we are issuing this NPRM to change the date and time to reflect the correct event details.

The purpose of this rulemaking is to ensure the safety of vessels and the navigable waters within a 200-yard radius of the firework display before, during, and after the scheduled event. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70034.

III. Discussion of Proposed Rule

The COTP is proposing to amend 33 CFR part 165.1713, titled Safety Zone; City of Valdez July 4th Fireworks, Port Valdez; Valdez, AK to reflect the actual date of the fireworks display of December 31st. The time of the safety zone would change to 7:30 p.m. to 9:00 p.m. The safety zone would still encompass all navigable waters of Port Valdez within a 200-yard radius from a position of 61°07'22" N and 146°21'13" W. No vessel or person would be permitted to enter the safety zone without obtaining permission from the

COTP or a designated representative. The regulatory text we are proposing appears at the end of this document.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This NPRM has not been designated a "significant regulatory action," under section 3(f) of Executive Order 12866, as amended by Executive Order 14094 (Modernizing Regulatory Review). Accordingly, the NPRM has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on extremely limited vessel traffic in the winter months, as well as the size, location, time of day, and duration of the safety zone. Furthermore, vessels may request authorization to transit through the safety zone with the permission of the COTP, Prince William Sound, Alaska. The Coast Guard will still issue a Broadcast Notice to Mariners via VHF-FM marine channel 16 about the zone.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601-612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the safety zone may be small entities, for the reasons stated in section IV.A above, this proposed rule would not have a significant economic impact on any vessel owner or operator.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it,
