Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire

comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Under the authority of the Organic Act of 1916, the National Park Service (NPS) is responsible for protecting resources and providing for the enjoyment of current and future generations. Of increasing importance to the NPS, is the experience of virtual visitors to NPS virtual resources. This collection will be administered as an online survey of users who visit NPS digital assets, including *NPS.gov*, park-managed social media accounts, and the NPS Mobile App. The study's objectives are to describe the NPS virtual visitor population, understand their motivations, and determine which platforms are most effective. For one year, across four seasonal waves, this study will collect data through an online survey offered to NPS digital platform visitors.

The 21st Century Integrated Digital Experience Act, (44 U.S.C. 3501), was signed into law to improve the digital experience for government customers and reinforce existing requirements for federal public websites. The objectives NPS Virtual Visitor Study are to describe the NPS virtual visitor population, understand their motivations, determine which NPS digital assets and platforms are most effective, and identify where user needs are not being met to target resources for improvement. The results from this study will highlight the strengths and gaps in NPS digital offerings. Specifically, the study will inform a stronger virtual visitor monitoring program. A virtual visitor monitoring program will serve to measure the public's engagement and satisfaction with NPS digital assets over time.
