

and sperm whale, and has preliminarily determined that this activity falls within the scope of activities analyzed in NMFS Greater Atlantic Regional Fisheries Office's programmatic consultation regarding geophysical surveys along the U.S. Atlantic coast in the three Atlantic Renewable Energy Regions (completed June 29, 2021; revised September 2021).

Revised Authorization

As a result of these preliminary determinations, NMFS proposes to issue an IHA to Orsted for conducting marine site characterization surveys off the coast of Delaware for a period of 1 year, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated. A draft of the proposed IHA can be found at <https://www.fisheries.noaa.gov/permit/incidental-take-authorizations-under-marine-mammal-protection-act>.

Request for Public Comments

We request comment on our analyses (included in both this document and the referenced documents supporting the 2022 IHA), the proposed authorization, and any other aspect of this notice of proposed IHA for the proposed marine site characterization surveys. We also request comment on the potential for renewal of this proposed IHA as described in the paragraph below. Please include with your comments any supporting data or literature citations to help inform our final decision on the request for MMPA authorization.

On a case-by-case basis, NMFS may issue a one-time, 1-year renewal IHA following notice to the public providing an additional 15 days for public comments when (1) up to another year of identical or nearly identical, or nearly identical, activities as described in the Description of the Proposed Activity and Anticipated Impacts section of this notice is planned or (2) the activities as described in the Description of the Proposed Activity and Anticipated Impacts section of this notice would not be completed by the time the IHA expires and a renewal would allow for completion of the activities beyond that described in the *Dates and Duration* section of this notice, provided all of the following conditions are met:

- A request for renewal is received no later than 60 days prior to the needed renewal IHA effective date (recognizing that the renewal IHA expiration date cannot extend beyond 1 year from expiration of the initial IHA).
- The request for renewal must include the following:
 - (1) An explanation that the activities to be conducted under the requested

renewal IHA are identical to the activities analyzed under the initial IHA, are a subset of the activities, or include changes so minor (*e.g.*, reduction in pile size) that the changes do not affect the previous analyses, mitigation and monitoring requirements, or take estimates (with the exception of reducing the type or amount of take).

(2) A preliminary monitoring report showing the results of the required monitoring to date and an explanation showing that the monitoring results do not indicate impacts of a scale or nature not previously analyzed or authorized.

- Upon review of the request for renewal, the status of the affected species or stocks, and any other pertinent information, NMFS determines that there are no more than minor changes in the activities, the mitigation and monitoring measures will remain the same and appropriate, and the findings in the initial IHA remain valid.

Dated: May 21, 2024.

Kimberly Damon-Randall,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510-22-P

DEPARTMENT OF DEFENSE

Department of the Air Force

[Docket ID: USAF-2024-HQ-0004]

Proposed Collection; Comment Request

AGENCY: Department of the Air Force, Department of Defense (DoD).

ACTION: 60-Day information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Department of the Air Force announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by July 29, 2024.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency, Regulatory Directorate, 4800 Mark Center Drive, Mailbox #24, Suite 08D09, Alexandria, VA 22350-1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to AF Information Collections Office, 1800 Air Force Pentagon, Suite 4C146, Washington, DC 20330, ATTN: Ms. Mia Day, or call 703-697-4593.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Aircraft and Personnel Automated Clearance System (APACS); OMB Control Number 0701-0160.

Needs and Uses: The information collection requirement is necessary to obtain Personally Identifiable Information (PII) which is used by in-country U.S. Embassy approvers to grant country travel clearances, Geographical Combatant Commands approvers to grant theater travel clearances, and by the Office of Secretary of Defense for Policy approvers to grant special area travel clearances. Aircrew PII is used for verification, identification and authentication of travelers for aircraft and personnel travel clearances, as required by DoD Directive 4500.54E, "DoD Foreign Clearance Program".

Affected Public: Individuals or households.

Annual Burden Hours: 246,000.

Number of Respondents: 492,000.

Responses per Respondent: 1.

Annual Responses: 492,000.

Average Burden per Response: 30 minutes.

Frequency: On occasion.

Dated: May 22, 2024.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison
Officer, Department of Defense.

BILLING CODE 6001-FR-P

DEPARTMENT OF DEFENSE

Defense Acquisition Regulations System

[Docket Number DARS-2024-0006; OMB Control Number 0750-0004]

Information Collection Requirement; Defense Federal Acquisition Regulation Supplement; Assessing Contractor Implementation of Cybersecurity Requirements

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Notice.

SUMMARY: The Defense Acquisition Regulations System has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by June 27, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

You may also submit comments, identified by docket number and title, by the following method: Federal eRulemaking Portal: <https://www.regulations.gov>. Follow the instructions for submitting comments.

FOR FURTHER INFORMATION CONTACT: Tucker Lucas, 571-372-7574, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title and OMB Number: Defense Federal Acquisition Regulation Supplement (DFARS); Part 204 and Related Clauses, Assessing Contractor Implementation of Cybersecurity Requirements, OMB Control Number 0750-0004.

Type of Request: Extension of a currently approved collection.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Respondent's Obligation: Required to obtain or retain benefits.

Frequency: At least annually.

Number of Respondents: 11,686.

Responses Per Respondent: 1.02, approximately.

Annual Responses: 11,977.

Average Burden Per Response: 4.92 hours.

Annual Burden Hours: 58,885.

Needs and Uses: The collection of information is necessary for DoD to assess where vulnerabilities exist in its supply chain and take steps to correct such deficiencies. In addition, the collection of information is necessary to ensure defense industrial base contractors that have not fully implemented the National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171 security requirements pursuant to the clause at DFARS 252.204-7012 begin correcting these deficiencies immediately.

This requirement supports implementation of section 1648 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92). Section 1648(c)(2) directs the Secretary of Defense to develop a risk-based cybersecurity framework for the defense industrial base sector as the basis for a mandatory DoD standard.

This requirement is implemented in the Defense Federal Acquisition Regulation Supplement (DFARS) through the solicitation provision at 252.204-7019, Notice of NIST SP 800-171 DoD Assessment Requirement, and the contract clause at 252.204-7020, NIST SP 800-171 DoD Assessment Requirements.

This clearance covers the following requirements:

- DFARS 252.204-7019, Notice of NIST SP 800-171 DoD Assessment Requirement, is prescribed for use in all solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial products and commercial services, except for solicitations solely for the acquisition of commercially available off-the-shelf (COTS) items. Per the provision, if an offeror is required to have implemented NIST SP 800-171 per DFARS clause 252.204-7012, then the offeror shall have a current assessment for each covered contractor information system that is relevant to the offer, contract, task order, or delivery order in order to be considered for award.

- DFARS 252.204-7020, NIST SP 800-171 DoD Assessment Requirements, is prescribed for use in all solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial products and commercial services, except for solicitations and

contracts solely for the acquisition of COTS items. The clause requires the contractor to provide the Government access to its facilities, systems, and personnel in order to conduct a Medium Assessment or High Assessment, if necessary. Medium Assessments are assumed to be conducted by DoD Components, primarily by program management office cybersecurity personnel, in coordination with the Defense Contract Management Agency's DCMA's Defense Industrial Base Cybersecurity Assessment Center (DIBCAC), as part of a separately scheduled visit (e.g., for a critical design review). High Assessments will be conducted by, or in conjunction with, DCMA's DIBCAC. DoD may choose to conduct a Medium Assessment or High Assessment when warranted based on the criticality of the program(s)/ technology(ies) associated with the contracted effort(s). For example, a Medium Assessment may be initiated by a program office who has determined that the risk associated with their programs warrants going beyond the Basic self-assessment. The results of that Medium Assessment may satisfy the program office or may indicate the need for a High Assessment.

DoD Clearance Officer: Mr. Tucker Lucas. Requests for copies of the information collection proposal should be sent to Mr. Lucas at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

Jennifer D. Johnson,

Editor/Publisher, Defense Acquisition Regulations System.
