General Description of Collection: Part 382 of the FDIC regulations (part 382) is necessary to give effect to such cross-default restrictions in the International Swaps and Derivatives Association, Inc. (ISDA) 2015 Universal Resolution Stay Protocol (ISDA Protocol). Part 382 requires that FDIC-supervised institutions that are subsidiaries of global systemically important banks (GSIBs) and their counterparties either adhere to the ISDA Protocol or take the prescribed steps to amend the contractual provisions of their Qualified Financial Contracts (QFCs), consistent with the requirements in the rule, within a specified period of time. If such institutions elect to amend their QFCs in lieu of adhering to the ISDA Protocol, they must seek the FDIC's approval of the proposed amendments, giving rise to this information collection. The information collection is necessary to ensure QFCs are amended in compliance with part 382. The rule applies to FDIC-supervised institutions that are subsidiaries of GSIBs and sets forth requirements parallel to those contained in similar rules recently published by the Federal Reserve Board and the Office of the Comptroller of the Currency with regard to entities they supervise to ensure consistent regulatory treatment of QFCs among the various entities within a GSIB group.

There is no change in the methodology or substance of this information collection. The total estimated annual burden for this information collection is 10 hours, which is a decrease of 10 hours from the 2021 information collection submission (20 hours). This decrease is a result of a reduction in the estimated annual number of respondents because of the

automation and standardization of business processes.
