Comments: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Foundation, including whether the information will have practical utility; (b) the accuracy of the Foundation's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the

use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Title of Collection: NSF's Evaluation of the Robert Noyce Teacher Scholarship Program.

OMB Number: 3145-NEW.

Expiration Date of Approval: Not applicable.

Type of Request: Intent to seek approval to establish an information collection.

Abstract: The National Science Foundation (NSF) Robert Noyce Teacher Scholarship Program (Noyce) aims to address the critical need for highly effective elementary and secondary mathematics and science teachers in high-need school districts. The program supports the recruitment, preparation, and retention of STEM (science, technology, engineering, and mathematics) undergraduate majors and professionals to become K-12 STEM teachers, as well as experienced teachers to become teacher leaders.

Noyce offers four program tracks:

1. *Scholarships and Stipends:* Supports undergraduate STEM majors and professionals with financial assistance and stipends to become K-12 STEM teachers in high-need school districts. Requires a teaching commitment of 2 years for each year of scholarship support.

2. *Teaching Fellowships:* Provides support to STEM professionals to become K-12 STEM teachers in high-need districts. Requires a 4-year teaching commitment.

3. *Master Teaching Fellowships:* Supports experienced K-12 STEM teachers to become teacher leaders in high-need districts. Requires a 5-year teaching commitment.

4. *Noyce Research:* Funds research projects focused on the effectiveness and retention of K-12 STEM teachers in high-need districts.

Additionally, the program accepts Capacity Building proposals from those preparing to submit proposals in any of the program's tracks and supports conference proposals aimed at improving STEM teacher preparation. The program also invites proposals for authentic Research Experiences in STEM Settings (RESS) for both Noyce and non-Noyce pre-service and in-service STEM teachers.

The NSF Directorate for STEM Education (EDU) Division of Undergraduate Education (DUE) requires evaluation and technical services for the Noyce program. Noyce has a 20-year history of responding to the critical need for highly effective K-
