**Agency Information Collection
Activities; Submission to the Office of
Management and Budget for Review
and Approval; Comment Request;
Notification of Chemical Exports Under
TSCA Section 12(b) (Renewal)**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Notification of Chemical Exports under TSCA Section 12(b) (EPA ICR Number 0795.17, and OMB Control Number 2070–0030) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 31, 2024. Public comments were previously requested via the **Federal Register** on September 22, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before July 1, 2024.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA–HQ–OPPT–2015–0453, to EPA online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 566–1206; email address: sleasman.katherine@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through May 31, 2024. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on September 22, 2023 during a 60-day comment period (88 FR 65390). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR covers the information collection activities associated with the reporting and recordkeeping requirements under section 12(b) of the Toxic Substances Control Act (TSCA) which requires any person who exports or intends to export to a foreign country a chemical substance or mixture for which submission of information is required under TSCA sections 4 or 5(b), or for which a rule, action or order has been proposed or promulgated under TSCA sections 5, 6, or 7, shall notify EPA of such export or intent to export. The Agency must, in turn, notify the government of the importing country of the notice and of EPA's regulatory action with respect to the substance.

In implementing TSCA section 12(b), EPA described the notification requirements applicable to persons exporting chemicals, including frequency of notification, covered chemicals, and content of the notification. See 40 CFR part 707, subpart D. In summary, the export notice must include five easily ascertainable items: (1) The name and address of the exporter; (2) The name of the chemical; (3) The country of import; (4) The date of export or intended export; and (5) The section of TSCA under which EPA has taken action (*i.e.*, TSCA sections 4, 5, 6 or 7). There are currently over 1,000 substances or categories of substances that have been regulated or proposed to be regulated

under the applicable sections of TSCA. For additional information about export requirements under TSCA, visit our website at <https://www.epa.gov/tsc-import-export-requirements>.

Form Numbers: 9600–031.

Respondents/affected entities: Entities potentially affected by this ICR include exporters of chemical substances regulated under TSCA which are mostly chemical companies classified under the North American Industrial Classification System (NAICS) codes 325 and 324.

Respondent's obligation to respond: Mandatory under TSCA section 12(b), as implemented by 40 CFR part 707, subpart D.

Estimated number of respondents: 226 (total).

Frequency of response: On occasion.

Total estimated burden: 2,694 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$184,690 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 238 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease reflects the net result from a decrease in burden caused by assuming 100 percent electronic submissions despite a small increase in burden due to a larger number of respondents compared to the previous ICR. This change is an adjustment to the estimates.

Director, Information Engagement Division.

Abstract: Section 328 of the Clean Air Act (CAA) gives the EPA responsibility for regulating air pollution from OCS sources located offshore of the States along the Atlantic and Pacific Coasts (except the North Slope Borough of Alaska), and along the Gulf Coast off the State of Florida eastward of longitude 87 degrees and 30 minutes (*i.e.*, off the coast of Florida). In general, these OCS sources must obtain OCS permits that comply with the New Source Review preconstruction permit program and title V operating permit program among other requirements, and then maintain ongoing compliance with their permit conditions. Industry respondents must prepare permit applications and, after receiving their permits, conduct testing, monitoring, recordkeeping and reporting as required by their permits. The EPA has delegated the authority to implement and enforce the OCS regulations to four local air pollution control agencies in California and three State air pollution control agencies (Delaware Maryland, and Virginia). These agency respondents must review sources' permit applications and reports, issue permits, observe performance tests and conduct inspections to ensure that the sources off their coasts are meeting all the requirements that apply to them. The type and quantity of information required will depend on the circumstances surrounding the action but may include that required in applicability determinations, Notices of Intent (NOI), New Source Review (NSR) preconstruction permitting requirements, Part 70 Title V (Title V) operating permit requirements, New Source Performance Standards (NSPS) and some National Emission Standards for Hazardous Air Pollutants (NESHAP) promulgated under section 112 of the CAA. In addition, inner OCS sources could be subject to other requirements as those that would be applicable if the source were located in the corresponding onshore area (COA). Sources locating beyond 25 nautical miles from the State seaward boundary (outer OCS) are subject to Federal air quality requirements which could
