k. *Description of Request:* As currently licensed, the Morrisville Hydroelectric Project No. 2629 (Morrisville Project) consists of four developments: Cadys Falls, Morrisville, Lake Elmore, and Green River. On April 25, 2013, the Village of Morrisville, Vermont (Village) filed an application

for a new license to continue to operate and maintain the Morrisville Project. In the license application, the Village proposes to continue operating the Morrisville, Cadys Falls, and Green River Developments. The Village proposed to remove the Lake Elmore Development from the project, permanently set the spillway opening at elevation 1,139 feet mean sea level (msl), and discontinue the annual fall drawdown at the development. Commission staff issued a final environmental assessment for the project's relicensing on December 16, 2014.

On August 9, 2016, the Vermont Agency of Natural Resources issued a water quality certificate (WQC) for the project's relicensing. Among other conditions, the WQC would restrict drawdowns of the Green River Development's reservoir to 1.5 feet from December 16 through March 31. By letter dated September 13, 2016, Commission staff requested that the Village conduct two studies for the Green River Development dam, a hydraulic and hydrology analysis and a stability analysis, to determine the effects of the 1.5-foot winter drawdown limit on the stability of the Green River Development's dam and the ability of the Green River Development to accommodate flood flows. The Village has not completed these studies, and the relicense application is still pending.

The Village filed an amendment to the current project license on February 15, 2022, as supplemented on July 11, 2023. The Village states that, in order to remove the Morrisville and Cadys Falls Developments from the uncertainty surrounding the Green River Development, it proposes to administratively amend the current license to split the project's four developments into two separately licensed projects. As proposed in this amendment application, the Green River and Lake Elmore Developments would remain licensed under docket number P-2629, while the Cadys Falls and Morrisville developments would be licensed separately under a new project number.

The Village states that its proposed amendment is administrative in nature and will not result in changes to the four developments' operations, ground disturbance, or environmental effects. On March 12, 2024, the Village notified the Commission that it intends to submit an application to surrender the Green River Development after the Commission issues its decision on the proposed amendment application.
