**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Automated Commercial Environment (ACE) Export Manifest for Air Cargo Test is a voluntary test in which participants agree to submit export manifest data to U.S. Customs and Border Protection (CBP) electronically, at least four hours prior to loading of the cargo onto the aircraft in preparation for departure from the United States. The ACE Export Manifest for Air Cargo Test is authorized under § 101.9(b) of title 19 of the Code of Federal Regulations (19 CFR 101.9(b)), which provides for the testing of National Customs Automation Program (NCAP) programs or procedures.

The ACE Export Manifest for Air Cargo Test examines the functionality regarding the filing of export manifest data for air cargo electronically in ACE. The ACE system creates a single automated export processing platform for certain export manifest, commodity, licensing, export control, and export targeting transactions. This will reduce costs for CBP, partner government agencies, and the trade community, as well as improve facilitation of export shipments through the supply chain.

The ACE Export Manifest for Air Cargo Test will also assess the feasibility of requiring the manifest information to be filed electronically in ACE within a specified time before the cargo is loaded

on the aircraft. This capability will enable CBP to calculate the risk and effectively identify and inspect shipments prior to loading of cargo to ensure compliance with all U.S. export laws.

CBP announced the procedures and criteria related to participation in the ACE Export Manifest for Air Cargo Test in a notice published in the **Federal Register** on July 10, 2015 (80 FR 39790). This test was originally set to run for approximately two years. On August 14, 2017, CBP extended the test period for one additional year (82 FR 37888). At that time, CBP also modified the original notice, making certain of the data elements optional, and opened the test to accept additional applications for participation from all parties who met the eligibility requirements.

The data elements, unless noted otherwise, are mandatory. Data elements which are “mandatory” must be provided to CBP for every shipment. Data elements which are “conditional” must be provided to CBP only if the particular information pertains to the cargo. Data elements which are “optional” may be provided to CBP but are not required. The data elements are set forth below:

- (1) Exporting Carrier
- (2) Marks of nationality and registration
- (3) Flight number
- (4) Port of lading
- (5) Port of unloading
- (6) Scheduled date of departure
- (7) Consolidator (conditional)
- (8) De-consolidator (conditional)

- (14) Shipper name and address
- (15) Consignee name and address
- (16) Cargo description

- (18) Split air waybill indicator (optional)
- (19) Hazmat indicator (Yes/No)
- (20) UN Number (conditional) (If the hazmat indicator is yes, the four-digit UN (United Nations) Number assigned to the hazardous material must be provided.)
- (21) In-bond number (optional)

For further details on the background and procedures and modifications regarding the test, please refer to the July 10, 2015 notice and August 14, 2017 extension and modification.

## II. Extension of the ACE Export Manifest for Air Cargo Test Period

CBP will renew the test for another two years to continue further evaluation of the ACE Export Manifest for Air Cargo Test to determine whether electronic submission of the manifest will allow for improvements in capabilities at the departure level. The extended test will now run for two additional years from the date of publication.

## III. Applicability of Initial Test Notice

All provisions found in the July 2015 notice, and modifications in the August 2017 extension, remain applicable, subject to the further extension of the time period provided herein.

## IV. Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. 3507), an agency may not conduct, and a person is not required to respond to, a collection of information unless the collection of information displays a valid control number assigned by the Office of Management and Budget (OMB).
