**Form EIA-782A, Refiners'/Gas Plant Operators' Monthly Petroleum Product Sales Report, Form EIA-782C, Monthly Report of Prime Supplier Sales of Petroleum Products Sold for Local Consumption, and Form EIA-821, Annual Fuel Oil and Kerosene Sales Report**

To concentrate limited EIA and respondent resources on more timely products, EIA proposes eliminating the EIA-782A, *Refiners'/Gas Plant Operators' Monthly Petroleum Product Sales Report*, the EIA-782C, *Monthly Report of Prime Supplier Sales of Petroleum Products Sold for Local Consumption*, and the EIA-821, *Annual Fuel Oil and Kerosene Sales Report*, surveys. EIA remains committed to balancing the costs associated with collecting data (for both respondents and taxpayers) with the benefits of providing a more complete data set. The U.S. energy industry is dynamic, and our surveys and publications have and will continue to evolve to provide the best value to the American people in support of efficient energy markets. We continue to explore opportunities to incorporate similar data from other sources.

(5) *Annual Estimated Number of Respondents*: 4,710;

(6) *Annual Estimated Number of Total Responses*: 178,880;

(7) *Annual Estimated Number of Burden Hours*: 26,489;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: \$2,414,737 (26,489 annual burden hours multiplied by \$91.16 per hour), a reduction from \$5,162,402 (63,226 annual burden hours multiplied by \$81.65 per hour) in 2021. EIA estimates that respondents will have no additional costs associated with the surveys other than the burden hours and the maintenance of the information during the normal course of business.

[Project No. 2423-031]

**Great Lakes Hydro America, LLC; Notice of Availability of Draft Environmental Assessment**

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for license for the Riverside Hydroelectric Project, located on the Androscoggin River in Coos County, New Hampshire and has prepared a Draft Environmental Assessment (DEA) for the project. No Federal land is occupied by project works or located within the project boundary.

The DEA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the DEA via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link. **SUPPLEMENTARY INFORMATION:**

*Title:* FERC-566: Annual Report of a Utility's 20 Largest Purchasers.

*OMB Control No.:* 1902-0114.

*Type of Request:* Three-year extension of the FERC-566 information collection requirements with no revisions to the current requirements.

*Abstract:* Section 305(c) of the Federal Power Act (FPA),<sup>1</sup> mandates federal oversight and approval of certain electric corporate activities to ensure that neither public nor private interests are adversely affected. The FPA prescribes information filing requirements to achieve this goal. These filing requirements are found at 18 CFR 46.3, and serve as the basis for FERC-566.

FERC-566 implements FPA requirements that each public utility annually publishes a list of the 20 purchasers which purchased the largest annual amounts of electric energy sold by such public utility during any of the three previous calendar years. The public disclosure of this information provides the information necessary to determine whether an interlocked position is with any of the 20 largest purchasers of electric energy.

*Type of Respondents:* Public utilities.

*Estimate of Annual Burden:* The Commission estimates 371 responses annually, and 4 hours and \$400 per response. The total estimated burdens per year are 1,484 hours and \$148,400. These burdens are itemized in the following table:

Number of respondents	Annual number of responses per respondent	Total number of responses (Column A × Column B)	Average burden & cost per response <sup>2</sup>	Total annual burden hours & total annual cost (Column C × Column D)	Cost per respondent (\$) (Column E ÷ Column A)
A.	B.	C.	D.	E.	F.
371 .....	1	371	4 hrs.; \$400 .....	1,484 hrs.; \$148,400 .....	\$400
