

suspended since 2011, with the last completed survey cycle occurring for 2006 data. Surveys previously reliant on these data for sample design have implemented new sampling methodologies, which no longer require these data. EIA proposes formally discontinuing this survey.

Form EIA-782A, Refiners'/Gas Plant Operators' Monthly Petroleum Product Sales Report, Form EIA-782C, Monthly Report of Prime Supplier Sales of Petroleum Products Sold for Local Consumption, and Form EIA-821, Annual Fuel Oil and Kerosene Sales Report

To concentrate limited EIA and respondent resources on more timely products, EIA proposes eliminating the EIA-782A, *Refiners'/Gas Plant Operators' Monthly Petroleum Product Sales Report*, the EIA-782C, *Monthly Report of Prime Supplier Sales of Petroleum Products Sold for Local Consumption*, and the EIA-821, *Annual Fuel Oil and Kerosene Sales Report*, surveys. EIA remains committed to balancing the costs associated with collecting data (for both respondents and taxpayers) with the benefits of providing a more complete data set. The U.S. energy industry is dynamic, and our surveys and publications have and will continue to evolve to provide the best value to the American people in support of efficient energy markets. We continue to explore opportunities to incorporate similar data from other sources.

(5) *Annual Estimated Number of Respondents*: 4,710;

(6) *Annual Estimated Number of Total Responses*: 178,880;

(7) *Annual Estimated Number of Burden Hours*: 26,489;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: \$2,414,737 (26,489 annual burden hours multiplied by \$91.16 per hour), a reduction from \$5,162,402 (63,226 annual burden hours multiplied by \$81.65 per hour) in 2021. EIA estimates that respondents will have no additional costs associated with the surveys other than the burden hours and the maintenance of the information during the normal course of business.

[Project No. 2423-031]

Great Lakes Hydro America, LLC; Notice of Availability of Draft Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for license for the Riverside Hydroelectric Project, located on the Androscoggin River in Coos County, New Hampshire and has prepared a Draft Environmental Assessment (DEA) for the project. No Federal land is occupied by project works or located within the project boundary.

The DEA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the DEA via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov, or toll-free at (866) 208-3676, or for TTY, (202) 502-8659.
