II. Discussion

On April 24, 2024, the NRC solicited comments on draft Site-Specific Environmental Impact Statement for License Renewal of Nuclear Plants, Supplement 26, Second Renewal, Regarding Subsequent License Renewal for Monticello Nuclear Generating Plant, Unit 1, NUREG-1437. The draft site-specific environmental impact statement evaluates the environmental impacts of proposed action (subsequent license renewal for Monticello Unit 1, whereby the period of operation would

be extended for an additional 20 years), and alternatives to the proposed action. The public comment period was originally scheduled to close on June 10, 2024. Pursuant to section 51.73 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC established a comment period of 45 days from the date of its **Federal Register** notice (89 FR 31225) issued on April 24, 2024, amending the Environmental Protection Agency initially noticed 45-day comment period established on April 19, 2024 (89 FR 28771). The NRC recently received requests to extend the comment period. The NRC found these requests to be reasonable and has decided, pursuant to 10 CFR 51.73, to extend the public comment period for fifteen days until June 25, 2024, to allow more time for members of the public to submit their comments.

Dated: May 30, 2024.

For the Nuclear Regulatory Commission.

Chief, Environmental Project Management Branch 1, Rulemaking, Environmental and Financial Support, Office of Nuclear Material Safety and Safeguards.
