

organizations, and government agencies. Respondents also include sponsors of proposed and approved mitigation banks and in-lieu fee programs.

The USACE is required by three Federal laws, passed by Congress, to regulate construction-related activities in waters of the United States. This is accomplished through the review of applications for permits to do this work. There are five types of permits that may be used. The ENG 4345 form used for standard permit applications has been in use since the 1970s and the request to extend the expiration date is being provided in this notice. The ENG 6082 used for Nationwide Permits (NWP) pre-construction notifications has been in use for several years. NWPs are one type of permit authorization that involves a streamlined review process to ensure that no more than minimal individual or cumulative adverse environmental effect result from construction of the proposed activity. NWPs authorize discharges of dredged or fill material into waters of the United States pursuant to section 404 of the CWA and structures or work in navigable waters under section 10 of the RHA of 1899. With the exception of the ENG 4345, use of the forms is optional, but allows the Corps to collect the information needed to evaluate the applicants' proposal to determine eligibility for authorization. The Corps will provide outreach materials to guide the public in which of the forms should be used and how using the form and providing the information requested can reduce the time it takes to review whether an application is complete. The information collected is used to evaluate, as required by law, proposed construction or filling in WOTUS that result in impacts to the aquatic environment and nearby properties, and to determine which type of permit would be required if one was needed.

In addition to the renewal of the ENG 4345 and ENG 6082, the Corps is also proposing seven new enterprise-level collections for (1) Notice of USACE Permit (ENG 4336), (2) Regulatory Violation Complaint (ENG 6284), (3) Certification of Compliance with Department of the Army Permit (ENG 6285), (4) Request for Pre-Application Meeting (ENG 6286), (5) Notification of Administrative Appeal Options and Process and Request for Appeal (ENG 6287), (6) Right of Entry (ENG 6294), and (7) Authorization to Act as an Agent (ENG 6295). The Corps is proposing to add these seven new forms to the collection to facilitate common requests from the public in a streamlined and standardized fashion that will be common across Corps districts. This

collection would include new forms to certify compliance with Corps permits, request a pre-application meeting, request an administrative appeal, and/or report a violation. The Corps also proposes to incorporate its Customer Service Survey (ENG 6233) into this collection.
