

Under Alternative D, the area open to cross-country OHV use would be reduced to about 70,573 acres of expressly defined areas. Most of the livestock grazing management would be the same as the No Action Alternative. However, if a rangeland health assessment and evaluation indicates one or more standards are not met in an allotment or pasture due to factors that are subject to BLM control, then the authorized officer shall consider taking action to make progress toward rangeland health standards and land use plan objectives, even if livestock grazing is not determined to be a significant causal factor for non-attainment of standard(s). Actions available to the authorized officer could include, but are not limited to, changes in livestock grazing management.

Alternative E was developed with input from individual members of the Southeastern Oregon Resource Advisory Council and would emphasize the protection of wilderness characteristics within 26 units (approximately 372,218 acres) that the BLM found to possess wilderness characteristics. Management of wilderness characteristics would be balanced with other resources and multiple uses in 68 units (approximately 1,109,160 acres). Management would emphasize other resources and multiple uses over wilderness characteristics in 12 units (approximately 168,512 acres). OHV and livestock grazing management throughout the planning area would be the same as the No Action Alternative.

The BLM further considered seven additional alternatives but chose not to analyze them in detail as explained in the Draft RMP Amendment and Draft EIS.

The BLM Oregon/Washington State Director has identified Alternative C as the preferred alternative. Alternative C was found to best meet the State Director's planning guidance and, therefore, selected as the preferred alternative because it emphasizes a high level of resource protection in portions of the planning area while providing for a sustainable level of multiple uses in other portions of the planning area. This alternative balances the need to preserve or protect specific public lands in their natural condition with the need to provide food and habitat for fish, wildlife, and domestic animals, and provide for outdoor recreation and human occupancy and use. Alternative C also recognizes the Nation's need for domestic sources of minerals, food, timber, and fiber from the public lands. This balance would be accomplished within the limits of the ecosystem's ability to provide these multiple uses on

a sustainable basis and within the constraints of applicable laws, regulations, and policies, including sections 102(7), 102(8), 102(12), 103(c), and 103(h) of FLPMA.

Schedule for the Decision-Making Process

The BLM will be holding three public meetings on the Draft RMP Amendment and Draft EIS in the following locations: One in-person meeting in Lakeview, Oregon, and two virtual meetings. The specific date(s) and location(s) of these meetings will be announced at least 15 days in advance through public notices, media releases, social media, and/or mailings.

The BLM will continue to consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM Manual 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration.

While the BLM has identified Alternative C as the preferred alternative, this does not represent the final agency decision. For this reason, the BLM encourages reviewers to provide substantive comments on all alternatives. Substantive comments are those that raise issues or concerns that may need to be addressed, challenge the accuracy of information presented, or challenge the adequacy of the analysis, along with a supporting rationale. You may submit written comments to the BLM through any of the methods identified in the ADDRESSES section above. All comments must be received by the end of the comment period or 15 days after the last public meeting, whichever is later. Whenever possible, reviewers should include a reference to either the page or section in the document to which the comment applies. Following the comment period, the BLM will develop and publish the Proposed RMP Amendment and Final EIS which may reflect changes or adjustments based on the substantive comments received.

Comments submitted must include the commenter's name and street address. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

After the BLM publishes the Proposed RMP Amendment and Final EIS, it will provide additional opportunities for public participation consistent with the NEPA and land use planning processes, including a 30-day public protest period and a 60-day Governor's consistency review.

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS-NCR-WHWO-WHWOA1-37974; PPNCWHHOA1; PPMSPD1Z.YM0000]

Committee for the Preservation of the White House; Notice of Public Meeting

AGENCY: National Park Service, Interior.

ACTION: Meeting notice.

SUMMARY: In accordance with the Federal Advisory Committee Act of 1972, as amended, the National Park Service (NPS) is hereby giving notice that the Committee for the Preservation of the White House (Committee) will meet as indicated below.

DATES: The meeting will take place on Wednesday, June 26, 2024. The meeting will begin at 2:00 p.m. until 4:00 p.m. (Eastern).

ADDRESSES: The meeting will be held at the White House, 1600 Pennsylvania Avenue NW, Washington, DC 20500. The meeting will be open to the public, but subject to security clearance requirements.

FOR FURTHER INFORMATION CONTACT: Comments may be provided to: John Stanwich, Executive Secretary, Committee for the Preservation of the White House, 1849 C Street NW, Room #1426, Washington, DC 20240, by telephone (202) 219-0322, or by email ncr_who_superintendent@nps.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The Committee was established in

accordance with Executive Order No. 11145, 3 CFR 184 (1964–1965), as amended. The Committee reports to the President of the United States and advises the Director of the NPS with respect to the discharge of responsibilities for the preservation and interpretation of the museum aspects of the White House pursuant to the Act of September 22, 1961 (Pub. L. 87–286, 75 Stat. 586). The meeting is open to the public. Detailed minutes of the meeting will be available for public inspection within 90 days of the meeting.

Purpose of the Meeting: The agenda will include discussion of policy changes and review of potential acquisition items. If you plan to attend this meeting, you must register by close of business on Monday, June 24, 2024. Please contact the Executive Secretary (see **FOR FURTHER INFORMATION CONTACT**) to register. Space is limited and requests will be accommodated in the order they are received. The meeting will be open to the public, but subject to security clearance requirements. The Executive Secretary will contact you directly with the security clearance requirements. Inquiries may be made by calling the Executive Secretary between 9:00 a.m. and 4:00 p.m. weekdays at (202) 219–0322.

Written comments may be sent to the Executive Secretary, Committee for the Preservation of the White House (see **FOR FURTHER INFORMATION CONTACT**). All written comments received will be provided to the Committee.

Please make requests in advance for sign language interpreter services, assistive listening devices, language translation services or other reasonable accommodations at least seven (7) business days prior to the meeting to give the Department of the Interior sufficient time to process your request. All reasonable accommodation requests are managed on a case-by-case basis.

Public Disclosure of Comments: Before including your address, phone number, email address, or other personal identifying information in your written comments, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 5 U.S.C. ch. 10.

Alma Rippis,

Chief, Office of Policy.

BILLING CODE 4312–52–P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[Docket No. BOEM–2024–0029]

Notice of Availability of a Final Environmental Assessment for Commercial Wind Lease and Site Assessment Activities on the Atlantic Outer Continental Shelf of the Central Atlantic

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of availability.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) announces the availability of a final environmental assessment (EA) and its finding that possible wind energy-related leasing, site assessment, and site characterization activities on the U.S. Atlantic Outer Continental Shelf (OCS) (the Proposed Action) will not significantly impact the human environment. The EA analyses the potential impacts of the Proposed Action and a No Action alternative. The EA will inform BOEM’s decision whether to issue leases on the OCS offshore the U.S. Central Atlantic coast and its subsequent review of site assessment plans in the lease areas.

ADDRESSES: The final EA and associated information are available on BOEM’s website at: <https://www.boem.gov/renewable-energy/state-activities/central-atlantic>.

FOR FURTHER INFORMATION CONTACT: Lorena Edenfield, BOEM Office of Renewable Energy Programs, 45600 Woodland Road, Sterling, Virginia 20166, (907) 231–7679 or Lorena.Edenfield@boem.gov.

SUPPLEMENTARY INFORMATION:

Proposed Action: The final EA analyzes the Proposed Action, which is to approve commercial wind energy leases in the Central Atlantic Wind Energy Areas (WEAs) and grant rights-of-way (ROWs) and rights-of-use and easement (RUEs). A BOEM-issued lease provides lessees the exclusive right to submit site assessment plans and construction and operations plans to BOEM for possible approval. A site assessment plan describes how the lessee will assess the physical characteristics of the lease area, which is a prerequisite to submitting a construction and operations plan. The EA considers the reasonably foreseeable environmental consequences associated with site characterization activities (geophysical, geotechnical, archaeological, and biological surveys) and site assessment activities (including

the installation and operation of meteorological buoys). BOEM prepared an EA for this proposed action in order to inform its planning and decision-making (40 CFR 1501.5(b)).

Alternative: In addition to the Proposed Action, BOEM considered a No Action Alternative. Under the No Action Alternative, BOEM would neither approve commercial wind energy leasing nor grant ROWs and RUEs in the Central Atlantic WEAs. BOEM’s preferred alternative is the Proposed Action.

Finding of no significant impact: After carefully considering the alternatives and comments from the public and cooperating and consulting agencies on the draft EA, BOEM finds that approval of commercial wind energy leasing and granting ROWs and RUEs in the lease area would not significantly impact the environment.

Availability of the final EA: The final EA and associated information are available on BOEM’s website at: <https://www.boem.gov/renewable-energy/state-activities/central-atlantic>.

Authority: 42 U.S.C. 4231 *et seq.* (National Environmental Policy Act, as amended) and 40 CFR 1506.6.

Karen Baker,

Chief, Office of Renewable Energy Programs, Bureau of Ocean Energy Management.

BILLING CODE 4340–98–P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–1343]

Certain Video Processing Devices and Components Thereof; Notice of Request for Submissions on the Public Interest

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that on May 29, 2024, the presiding administrative law judge (“ALJ”) issued an Initial Determination on Violation of Section 337. On May 29, 2024, the ALJ also issued a Recommended Determination on remedy and bonding should a violation be found in the above-captioned investigation. The Commission is soliciting submissions on public interest issues raised by the recommended relief should the Commission find a violation. This notice is soliciting comments from the public and interested government agencies only.
