

and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. To access this document in eLibrary, type the docket number excluding the last three digits of this document in the docket number field. User assistance is available for eLibrary and the Commission's website during normal business hours from FERC Online Support at 202-502-6652 (toll free at 1-866-208-3676) or email at [ferconlinesupport@ferc.gov](mailto:ferconlinesupport@ferc.gov), or the Public Reference Room at (202) 502-8371, TTY (202) 502-8659. Email the Public Reference Room at [public.referenceroom@ferc.gov](mailto:public.referenceroom@ferc.gov).

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

*Comment Date:* 5:00 p.m. Eastern Time on July 5, 2024.

Dated: June 6, 2024.

**Debbie-Anne A. Reese,**  
*Acting Secretary.*

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-11978-01-ORD]

### Ambient Air Monitoring Reference and Equivalent Methods; Designation of One New Equivalent Method

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of the designation of a new equivalent method for monitoring ambient air quality.

**SUMMARY:** Notice is hereby given that the Environmental Protection Agency (EPA) has designated one new equivalent method for measuring concentrations of ozone (O<sub>3</sub>) in ambient air.

**FOR FURTHER INFORMATION CONTACT:** Robert Vanderpool, Air Methods and Characterization Division (MD-D205-03), Center for Environmental Measurement and Modeling, U.S. EPA, Research Triangle Park, North Carolina 27711. Phone: 919-541-7877. email address: [Vanderpool.Robert@epa.gov](mailto:Vanderpool.Robert@epa.gov).

**SUPPLEMENTARY INFORMATION:** In accordance with regulations in 40 CFR part 53, the EPA evaluates various methods for monitoring the concentrations of those ambient air pollutants for which EPA has established National Ambient Air Quality Standards (NAAQS). Monitoring methods that are determined to meet specific requirements for adequacy are designated by the EPA as either reference or equivalent methods (as applicable), thereby permitting their use under 40 CFR part 58 by States and other agencies for determining compliance with the NAAQS. A list of all reference or equivalent methods that have been previously designated by EPA may be found at <http://www.epa.gov/ttn/amtic/criteria.html>.

The EPA hereby announces the designation of one new equivalent method for measuring concentrations of O<sub>3</sub> in ambient air. This designation is made under the provisions of 40 CFR part 53, as amended on October 26, 2015 (80 FR 65292).

This new equivalent method for O<sub>3</sub> is an automated method (analyzer) utilizing the measurement principle based on UV photometry. This newly designated equivalent method is identified as follows:

EQOA-0424-263, "Vasthi Instruments Model Vair-9004 O<sub>3</sub> Analyzer," UV photometric analyzer operated in a range of 0-0.5 ppm, with 0.5 µm, 47 mm diameter Teflon® filter installed, operated at temperatures between 20°C and 30°C, with

temperature and pressure compensation, at a nominal sampling flow rate of 800 cc/min, using a 5 minute averaging time, with either 105VAC-125VAC or 200VAC-240VAC input power options, 270-watt power consumption, equipped with 7 inch LCD touch screen display, and operated according to the Vasthi Instruments Model Vair-9004 Ozone Analyzer User's Instruction Manual.

This application for an equivalent method determination for this O<sub>3</sub> method was received by the Office of Research and Development on April 8, 2024. This analyzer is commercially available from the applicant, Vasthi Instruments, Guntur 522 001, Andhra Pradesh, India.

A representative test analyzer was tested in accordance with the applicable test procedures specified in 40 CFR part 53, as amended on October 26, 2015. After reviewing the results of those tests and other information submitted by the applicant, EPA has determined, in accordance with 40 CFR part 53, that this method should be designated as an equivalent method.

As a designated equivalent method, this method is acceptable for use by states and other air monitoring agencies under the requirements of 40 CFR part 58, Ambient Air Quality Surveillance. For such purposes, this method must be used in strict accordance with the operation or instruction manual associated with the method and subject to any specifications and limitations (e.g., configuration or operational settings) specified in the designated method description (see the identification of the method above).

Use of the method also should be in general accordance with the guidance and recommendations of applicable sections of the "Quality Assurance Handbook for Air Pollution Measurement Systems, Volume I," EPA/600/R-94/038a and "Quality Assurance Handbook for Air Pollution Measurement Systems, Volume II, Ambient Air Quality Monitoring Program," EPA-454/B-13-003, (both available at <http://www.epa.gov/ttn/amtic/qalist.html>). Provisions concerning modification of such methods by users are specified under section 2.8 (Modifications of Methods by Users) of appendix C to 40 CFR part 58.

Consistent or repeated noncompliance with any of these conditions should be reported to: Director, Air Methods and Characterization Division (MD-D205-03), Center for Environmental Measurement and Modeling, U.S. Environmental Protection Agency,

Research Triangle Park, North Carolina 27711.

Designation of this equivalent method is intended to assist the States in establishing and operating their air quality surveillance systems under 40 CFR part 58. Questions concerning the commercial availability or technical aspects of the method should be directed to the applicant.

**Alice Gilliland,**

*Acting Director, Center for Environmental Measurements and Modeling.*

## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0625; FR ID 224730]

### Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

**DATES:** Written comments should be submitted on or before August 12, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Cathy Williams, FCC, via email to [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Cathy.Williams@fcc.gov](mailto:Cathy.Williams@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

**SUPPLEMENTARY INFORMATION:**

*OMB Control No.:* 3060-0625.

*Title:* Section 24.103, Construction requirements.

*Form No.:* N/A.

*Type of Review:* Extension of a currently-approved collection.

*Respondents:* Business or other for-profit, individuals or household, not-for-profit institutions, and State, local or Tribal government.

*Number of Respondents and Responses:* 6 respondents and 6 responses.

*Estimated Time per Response:* 0.5-1.5 hours.

*Frequency of Response:* Recordkeeping requirement, On occasion reporting requirement, 5 and 10 year reporting requirements.

*Obligation to Respond:* To ensure that licensees timely construct systems that either provide coverage to minimum geographic portions of their licensed areas, that provide service to minimum percentages of the population of those areas, or that, in the alternative, provide service that is sound, favorable, and substantially above a level of mediocre service that would barely warrant renewal.

*Total Annual Burden:* 6 hours.

*Annual Cost Burden:* \$1,238.

*Needs and Uses:* The information collection requirements contained in Section 24.103 require that certain narrowband PCS licensees notify Commission at specific benchmarks that they are in compliance with applicable construction requirements in order to ensure that these licensees quickly construct their systems and that, with those systems, they provide, within their respective licensed areas: Coverage to minimum geographic areas, service to minimum percentages of the population, or "substantial service" within ten years after license grant. The Commission is not currently collecting information from narrowband PCS licensees under Section 24.103 and does not expect to do so during the three year period for which it seeks extension of its

current collection authority under that section. However, following the future auction of new narrowband PCS licenses, the reporting and recordkeeping requirements under this section will be used to satisfy the Commission's rule that such licensees demonstrate compliance with these construction requirements by the 5 and 10-year benchmarks established upon the grant date of each license. Without this information, the Commission would not be able to carry out its statutory responsibilities.

Federal Communications Commission.
